

Zero Gravity Health Benefits

Correct Spinal Alignment

Overtime, stress of gravity results in misalignment of the spine. The zero gravity position provides the opportunity for these misalignments to correct themselves.

Back Pressure Relief

Correct resting position relaxes the spine, allowing the muscles to rest and spinal discs to return to their normal shape. In turn, helps reduce back pain due to gravity pressure on the spine.

Reduce Muscle Tension

Helps to relax stiff muscles. As a result, flow of lymphatic fluids is enhanced, body's wastes are flushed out and fresh supply of oxygen is delivered to stiff muscles to relief pain faster.

Improve Blood Circulation

In a relaxed condition, the body's circulatory system is able to increase the oxygen supply to the brain and other organs of the body.

4 Unique Massage Functions

Truly Ergonomic S-track

It's ergonomically designed to follow the natural S-curve of the human spine in mind. It provides support to both your neck and back, especially the lumbar area. This position increases the effects of massage as it enables each disc of our spine to individually separate and decompress, allowing nutrients to enter disc tissue.

Shiatsu Therapy

Combining ancient tradition and modern technology, CZ-810 brings you an exclusively unique mechanical massage with the flexibility of a human's hand. This user friendly design coordinates the different massage formula and comes with a flexible combination of massage function to effectively relieve stiffness around the body.

Jacuzzi Therapy

Rhythmic vibration on the seat imitates the flow of air bubbles in a Jacuzzi to stimulate muscles and cells, and to tone and strengthen muscles. Improve capillary flow and blood circulation to the lower body.

Heating Therapy

CZ-810 offers you the benefits of deep heat therapy to your waist to help expand pores and channel perspiration outdoors while allowing you to sink deeper into the comfortable and warm embrace of CZ-810.

Multi-layered Air Bags

46 air bags around the back, arm, seat, calves and soles for extra comfort as it cradles the body like a glove for increased massage effectiveness.

UNIQUE: When reclining, the armrest goes backward together with the backrest, that keeps the arm in massaging during the whole recline process.

UNIQUE ARM MASSAGE FUNCTION

Comfortable, Ergonomic Headrest

It provides not only outstanding head and neck support, but also perfect massage by air bags and rolling manipulation.

Description	Specifications
Model No.	CZ-810
Rated Voltage	110 - 120 -
Rated Frequency	50/60 Hz
Rated Power Consumption	250W Max
Timer	5/10/15/20/25/30 minutes
Max time rate	60 minutes
Safety Feature	With protection against overheating, voltage and current overload

-  Brown PU / Brown Leather with PU
-  Black PU / Black Leather with PU
