Targeted relief  
for feet and calves

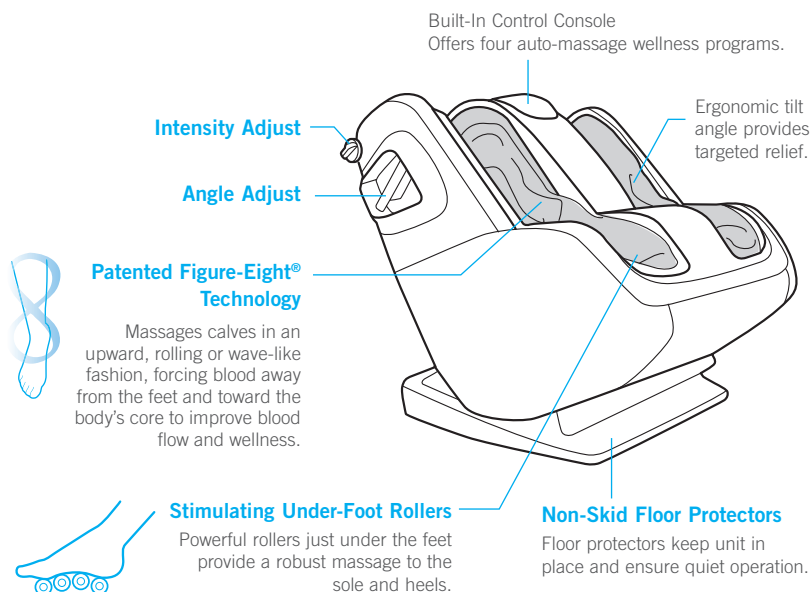

CIRQLATION® | Foot & Calf massager

Patented Figure-Eight® Technology

It's critical to massage the calves in an upward, rolling or wave-like fashion. Human Touch® patented Figure-Eight® Technology circulates blood from the feet toward the core of the body, allowing fresh nutrients to re-enter the calves and feet for greater healing and soothing comfort. The HT-Reflex8 Foot & Calf Massager delivers the very latest in three-dimensional robotic massage technology, featuring techniques used by highly trained massage therapists.
