THE INNOVATORS OF COMFORT™

EKORNES®

## The pleasure of comfort

Since 1934 we have had the pleasure of filling homes all around the world with comfort. This has made Stressless® one of the best known brands in the furniture industry. The passion for details and innovative solutions shared by all our employees, enables us to create new systems that will give your body the best possible sitting experience, and at the same time provide your living room with an impressive appearance.

There are many reasons why our furniture is so comfortable. It has to do with the people, the choice of materials and all the innovative solutions we have put into production. The landscape that surrounds us also plays a big role in defining what we produce. The majestic peaks and endless fjords set our minds at ease and is the perfect medicine on the most stressful of days. If you have not visited the fjords yet, but want a taste, even just a small one, we recommend giving Stressless® a try. It may very well be the closest you'll ever get to the bliss of pure comfort.

# The Stressless® book of comfort

## Intro

With even more innovative solutions and options to choose from, this year we guarantee you will be sitting and lying more comfortably than ever. We obviously don't want to boast, and you need to try a Stressless® for yourself, but we're delighted to show you both our new products and our eternal classics.

## 6-7

Three different bases. Yes, those are the options you have when choosing a chair. Making it even easier to find what you're looking for.

## 20-21

Most of our Stressless® designs are available in three sizes. Different body shapes deserve the same comfort.

## 64-67

We put maximum effort into ensuring our unique comfort. Learn more about our innovative solutions.

## 68-69

We have a number of tables in our range that contribute to your comfort experience.

## Maximum comfort

The smallest of movements is often what makes the difference between a good and a great seating experience. With BalanceAdapt™ the sitting angle automatically adapts to the body's every movement. It's all about finding the right balance from top-to-bottom, without using levers or handles. The soft rocking motion increases comfort in all positions, and the headrest provides extra support for the head and neck if you want a high back on the sofa.

## Individual comfort

Stressless® Metro craves attention, but also knows the fine art of suiting its surroundings. Choose this new furnishing solution, where friends and family can all get together, and everyone can still have a seat all to oneself. Combined with a stylish rotating base, fresh lines, and a new headrest pillow for optimal neck support on the high back model, the list of comfort demands is met in every way.

The Stressless® Urban glass table comes in two different sizes; a practical small table and a larger variant that among other things can be used as a coffee table. The table is custom made to match our recliners Stressless® Metro and Stressless® City. Even so, both recliners and tables match many of our Stressless® and Ekornes® sofas.

## When comfort is at stake

Follow up a great dinner with a little friendly competition! The winner gets to stretch out on the sofa, while the loser clears the table and does the dishes. Stressless® Como comes as both high and low back sofas and can sit as a generous corner group when paired with a big corner piece. Featuring a height adjustable headrest; now you will both sit comfortably. May the best man or woman win!

# A perfect end to the day

Once silence has descended on the house, you can each crawl into your Stressless® Peace. This chair is about quality, and for you it's about time. Together this makes quality time. Most of our Stressless® recliners are available in three sizes. And with the Plus™-system, it turns into a free-for-all when it's time to enjoy a film or good conversation.

# Movie bonanza

You move more than 300 times during the length of a movie. But do not despair – the spacious, soft seats in your Stressless® Home Theater solution, in combination with the Stressless® ottoman ensures an optimal movie experience. Regardless of how much available space you have for you home theater setup, there is always a place for a Stressless®. The geniality lies in the flexible modules.

Stressless® Double Ottoman.

The Stressless® Double ottoman features ample leg room for two, plus ample storage space inside. It also comes with an optional wooden table top, which can be placed on the ottoman – as a handy table when needed. The Stressless® Oval ottoman has been built around the same general idea – with its removable pillow, the ottoman also acts as a convenient table. The pillow can be stored underneath the table top when not in use.

The clever sector tables and armrests complete the Stressless® home cinema setup, both functionally and aesthetically. No need to get up! Now everyone can keep their own giant bowl of popcorn, or selected beverage, within reach. The clever armrests double as practical storage places and so do the Stressless® ottomans.

# Stressless® Home Theater

Regardless of how much available space you have for your home theater setup, there is always a place for a Stressless®. The geniality lies in the flexible modules. Find your favorite model, and pick your ideal arrangement from the size and positioning chart. We've sketched a few possible configurations from a variety of our styles.

The Stressless® Sector (SC)/Sector Arm (SCA) is upholstered like the sofa and hides a storage space under its top. The Sector/Sector Arm also functions as an armrest, which is why setups with Sector/Sector Arm tables should be treated as a fixed unit.

Ekornes® Corner Table (CT) combines the need for a table with the need for individual positioning of the chairs and sofas. The Corner Table is free-standing, allowing you to re-organise the furniture when needed. Corner Table can be placed with any chair/sofa combination.

# Comfort on wheels

Our line of Stressless® Home Office chairs are our contribution to a truly satisfying home office experience. Your back deserves the same amount of relaxation while working, as while relaxing. The simple truth is if your back is enjoying itself, your mind works better. The combination of the comfort of a Stressless® recliner and the mobility of a wheeled office chair provides you with the ability to get the job done, without the stiffness in your back at the end of the day.

The Stressless® Home Office chairs have the same comfortable function you will find in our other recliners. It comes with the Plus™-system, where the headrest and lower back support have synchronous adjustment. It also has a simple height-adjustment using the handle under the seat. For optimum comfort and excellent freedom of movement.

# Discover the secrets of personal comfort

The unique cushioning in our Stressless® recliners and sofas embraces and supports your body like nothing else. 45 years of innovation have brought us to a point where we wholeheartedly can say that our Stressless® recliners and sofas are the best on the market. One reason why we can take such a bold stance is that the manufacturing of every little component on a Stressless® takes place at our own factories, in the fjords of Norway.

1. The perforated foam is molded directly over the frame. The indentations in our new Comfort-Zones™ technology let your body sink deeper into the seat, giving you an overall embraced feeling for even more enhanced personal comfort.
2. An additional pad of soft space-age foam ensures optimum comfort.

## Worth testing

You're the only one who knows what feels best for you. That is why we encourage all our customers to try a Stressless®. This ensures that you will find a recliner with the right size and firmness. We can guarantee that it will be time well spent. A Stressless® recliner is after all an investment for many years to come.

- Can you adjust the headrest so that it lies flat when you recline?
- Is your head supported comfortably as you lie down to read or watch TV?
- Do you have the feeling that the seat back reclines sufficiently?
- Does the chair provide good lumbar support in all positions?
- Does the recliner feel stable and safe?
- Does the gliding movement smoothly adjust to your body weight?
- Do the chair and ottoman move with you as you shift positions?
- Are the height and width of the chair right for you?
- Are you aware of how your entire body relaxes?
- Is the ottoman positioned in the right place to give you maximum leg support?

### Plus™-system

Perfect support and comfort whether you are sitting up or lying down. It's not easy to achieve. But our unique Plus™-system can do just that. The lower back and headrest adjust whenever you move. This is useful when e.g. watching TV. And if the film isn't what you expected, you can engage the sleep function in the headrest in one easy step. Night night.

1. The headrest adjusts automatically, so you can read and watch TV, even in a reclining position. 2. The Plus™ system adjusts the lower back support simultaneously with the headrest. Upright or reclined, you're always perfectly supported. 3. Lower the headrest to the sleep position with one simple movement. 4. Adjust the Stressless® Glide wheels to the setting of your desire. You can automatically shift to any seating position simply by using your body weight.

### BalanceAdapt™-system

The smallest of movements is often what makes the difference between a good and a great seating experience. With BalanceAdapt™ the sitting angle automatically adjusts to your body's every movement. It's all about finding the right balance – from top-to-bottom, without the use of levers or handles. The subtle and soft rocking motion increases your comfort in any position and also ensures that the sitting angle adjusts even further. The new, optional headrest for BalanceAdapt™ sofas can easily be mounted without tools. The recliner also has the Plus™ system, providing optimal support for your neck and lower back, providing you with a unique comfort experience.

### ErgoAdapt™-system

The built-in ErgoAdapt™ system on the Stressless® E200, E300 and E600 allows you to sink into its soft cushioning. This discreet tilting mechanism makes the sofa automatically adjust to your body, providing you with a perfect sitting angle or sleeping position. The subtle movement of our flexible headrest is easily adjusted, making the sitting experience even better.

The headrest can be used on existing Stressless® E200, E300 and E600 units, and is easily mounted. The Long Seat has its own specially adapted headrest with the same innovative functions.

**From zero position to tilt position**  
The Stressless® ErgoAdapt® system automatically tilts the seat as you sit down – providing the perfect degree of comfort and support.

**Lying down flat, no tilt**  
When you lie down on the sofa, the seat stays completely flat, offering exquisite comfort and giving you full advantage of the oversized seat.

The Long Seat automatically tilts down, giving your legs perfect support when seated, while staying completely flat when you prefer to lie down.

### PUT YOUR STRESSLESS® E200/E300/E600 TOGETHER EXACTLY THE WAY YOU WANT

Regardless of how much available space you have for your home theater setup, there is always a place for a Stressless®. The geniality lies in the flexible modules. Find your favorite model, and pick your ideal arrangement. We've sketched a few possible configurations from a variety of our styles.

**STRESSLESS® OVAL OTTOMAN**  
The Stressless® Oval Ottoman has a removable pillow, thus doubling as a convenient table. When you don't need it to rest your feet on, simply store the pillow below the tabletop.  
W:35 1/2" H:18 1/2" D:19"

**STRESSLESS® URBAN TABLE**  
The stylish Stressless® Urban glass table is a versatile complement to any room. Choose between a larger sofa table edition and a practical small edition to place next to your Stressless® recliner.  
Ø:35 1/2" H:19" / Ø:21 3/4" H:19"

**STRESSLESS® COFFEE TABLE**  
A flexible and cleverly designed table in stainless steel and glass, that fits perfectly above the seat of your sofa. Your snack, or beverage, is never more than an arm's length away. Stressless® Coffee table can also be used as a side table, and if you put two of them together they form an ingenious sofa table. W:23 1/2" H:19 1/2" D:19 1/2"

**EKORNES® PEGASUS TABLE**  
The design complements the Pegasus collection with curved wood legs. A shelf beneath the tabletop is a good place to store newspapers, magazines and remote controls. L: 50" W: 30 1/4" H: 19"

**EKORNES® WINDSOR TABLE**  
Enhance the décor of your home with our Windsor table. It features sleek, simple lines with a shelf below, perfect for storing remotes, books and magazines. The Windsor table is designed to complement both the Windsor and Buckingham series. L: 51 1/2" W: 27 1/2" H: 19"

**STRESSLESS® EASY ARMREST TABLE**  
This table is made for the Stressless® Arion, E200, Piano and Wave. Place the armrest for convenience when sitting and relaxing, or simply take it off or move it when not in use.  
W: 9 3/4" H:4" D: 9 3/4"

**STRESSLESS® SWING TABLE**  
The Stressless® Swing table is a practical and innovative accessory that heightens your state of comfort in a Stressless® recliner. This small, versatile, table carries your remote, cup, book or whatever else you keep handy. D:11"

**STRESSLESS® PERSONAL TABLE**  
The ultimate solution to comfort online is the Stressless® Personal Table. It provides a firm and stable workspace directly above your lap. When you're finished, simply swing the table aside and fold it down alongside the recliner. W: 16 1/4" D:12 1/4"

**STRESSLESS® DOUBLE OTTOMAN**  
The Double Ottoman has plenty of leg room for two, plus ample storage space inside. The optional table top serves as a handy refreshment table that can be placed on the ottoman when needed. W:47" - 60 1/2" H: 17 1/2" D:24"

W:20" D:15 3/4" H:17 1/4"

**STRESSLESS® MODERN AND STRESSLESS® SOFT OTTOMAN**  
Our ottoman is ingenious in at least two ways. It has a built-in tilt system, which makes sure the angle of the ottoman is adapted to your sitting position. It also has room for all the extras, under its removable top. The ottoman comes in two sizes.

# Ekornes® offers four categories of leather, In a selection of beautiful colors.

**BATICK** is a corrected, pigment improved and grain embossed upholstery leather, which has had most of its natural marks removed. Batick may have a two-tone color effect to liven up the surface. Batick is resistant to fading, although changes in color will occur over time due to use and exposure to light. A protective layer of lacquer simplifies cleaning. Simple cleaning, excellent durability and a reasonable price make Batick a good choice.

**PALOMA** is a slightly corrected leather with a combination of dyes and pigments that smoothes down some of the structure (the grain pattern) of the leather. The grain structure in Paloma may, however, vary a little at some parts of the furniture, and also minor color nuances may appear in the leather. Natural marks, scars and insect bites are natural and will appear in Paloma. A thin coat of lacquer gives Paloma some protection and simplifies cleaning, but Paloma does not have the same heavy-duty quality and protection as Batick and Cori. Due to its soft, natural and comfortable expression, Paloma is a very popular choice.

**CORI** is a corrected, pigment improved and grain embossed upholstery leather. Cori is somewhat thicker and has a larger pebbled grain than Batick. Most of its natural marks are removed. Also, some of the Cori colors have a two-tone color effect to liven up the surface. A protective layer of lacquer simplifies cleaning. Cori is a wise choice if you want leather with excellent durability.

**NOBLESSE** is the most exclusive leather in Ekornes' collection. It is a full grain, semi-aniline leather, which means that the leather is dyed using a light surface treatment. This provides a certain amount of protection, while maintaining the natural softness and glow that are characteristic of a first class upholstery leather. A natural material such as Noblesse retains its original grain and structure, and various grain patterns may be visible at different areas of the furniture. Minor color variations and marks resulting from scars and injuries may also be visible, and are characteristic of a natural material like Noblesse. Due to the light surface treatment, Noblesse is the most delicate of Ekornes' leathers. It easily absorbs moisture and is extra sensitive to wear, heat, exposure to sunlight, stains and sweat. Regular maintenance is important in order to maintain the leather's exceptional appearance.

## Ekornes® upholstery leather

Ekornes is one of Europe's largest consumers of leather. We purchase the leather from selected tanneries all over the world. Our own inspectors take part in the leather selection, which is conducted in accordance with international norms for quality determination. The experience we have gained from this work is for your benefit when you buy Stressless® or Ekornes® leather furniture. Our leather is manufactured according to current laws, guidelines and recommendations on durability, and for the use and content of chemicals and other substances. We are cooperating with recognized international institutions in this line of business, to ensure that we are updated at all times with events relating to health, safety and the environment.

### The leather for our furniture is a natural material that comes from cattle hides.

When the hide has gone through a tanning process and further processing to achieve the correct durability properties, it is called leather. One characteristic of a hide is that it is marked by nature, vegetation and the care the animal has been subjected to. Cattle spend most of their lives outdoors, and will therefore be marked by external influences like insect bits, tears, scars, wrinkles, stretch marks, etc.

### The following are some of the properties of leather that you should be aware of:

Leather is a natural product and is a beautiful and lively material used in furniture making. Each hide is unique in its structure, appearance, nuance and size. Ekornes may use several hides when making your furniture. This, together with the leather's play of colors and natural marks, makes each piece of furniture unique. In time, the leather will age and gain patina. It is important that you are aware of one thing: although leather furniture can withstand a lot of wear and tear, its appearance will change with the years.

**The following applies to all types of leather used by Ekornes:** Hide absorbs dyes differently and therefore the leather may have color nuances. These are due to dissimilarities and different fiber structures, which affect the coloring of the hide and how the hide absorbs the dyes during the tanning process.

All our leather qualities are deep-dyed, but there could always be a deviation between the basic color of the hide (the color of the side that faces the upholstery side of the furniture), and the color of the grain side (the external side) i.e. the color of the outer layer. This is normal. It is possible to use the same basic color for leathers with different top colors.

Dyes and dyeing methods may vary between the different leather colors and leather qualities. Therefore, the basic color and the color of the top layer (which forms the wear layer and the final desired color of the finished product) of a given leather quality may differ.

Some of the leather dyes have a two-tone color effect (shadow/antique effect). Leather dyed with a two-tone effect may change character faster and wear more unevenly than leather with just one color. This applies in particular to areas of the furniture that are exposed to harder wear such as armrests, seat cushions and neck supports.

The top layer protects the leather and simplifies cleaning, but is nonetheless vulnerable to soiling and wear. If the top layer/top color is destroyed, the leather may deteriorate faster. Penetrating spills/damage/scratches are normally irreparable and may result in the top color changing character, cracking or peeling off.

Please note that denim clothing and jeans may leave color on the leather, which is difficult to remove without risking destruction of the top color of the leather. Light leather colors, in particular, are vulnerable to such color contamination.

All furniture leather sold by Ekornes is resistant to light, but changes in color may occur as a result of use and extensive exposure to light. Consequently, furniture should not be exposed to direct sunlight or direct heat from heaters and other sources of heat. Leather is vulnerable to exposure to oils from direct contact with human skin (especially of the neck and hands).

Remember: leather has a relatively long life-time, but can easily be destroyed by incorrect handling.

## Fabrics

Our specially selected fabric collection meets the most severe requirements in the furniture trade. Stressless® fabrics are produced according to strict conditions with respect to nature; they are also prepared for heavy-duty use, light tolerance and flammability. Choose from all ranges in a wide selection of colors that match your interior.

Please note that color changes will occur with time, as a result of use and the effect of light. You should always protect your furniture from direct sunlight. To prolong the life and appearance of your chair or sofa, the fabric upholstery should be regularly cleaned.

## The Stressless® wood colors

Made from laminated European beech, a light-colored wood with an attractive grain, exceptionally suitable for staining in various colors. Also, the strength of the wood makes beech furniture extremely durable.

# Stressless® Leather and Fabric Care kits

To match the high quality of our furniture, Ekornes now offers its own leather and fabric (including microfiber) care series.

The Stressless® Leather Care kit (medium, large) and the Stressless® Leather Care Wipes contain a leather cleaner, a protection cream and wipes. For nurturing, and making the leather more resistant to stains, the protection cream should be applied to all leather surfaces when your recliner is new. For later treatment, in addition to regularly removing stains, we recommend that the leather is cleaned with the Stressless® Leather Cleaner at least every 6 months. Always apply protection cream after cleaning.

Please see [www.ekornes.com](http://www.ekornes.com) for further information about maintaining your leather furniture. The Stressless® Fabric Care kit contains a fabric cleaner, a stain remover and 'Ox cleaner'.

This kit gives you everything you need to clean a piece of furniture in just minutes, without removing the fabric cover. For resistant stains, use the Fabric Cleaner together with the Stain Remover and 'Ox Cleaner'.

These are the only cleaners Ekornes will approve. Ekornes will decline all responsibility in cases where other products than those approved by Ekornes have been used to maintain your leather and fabric furniture.

## EKORNES® AND THE ENVIRONMENT

The objective of Ekornes is to accept environmental responsibility related to manufacturing, distribution and use of the company's products.

We will continue to implement initiatives in our factories that improve the internal and external environment, at the same time as we continue to select environmentally-friendly raw materials.

A sustainable manufacture of durable products will also be an objective in the development of our company.

The following core items shall be complied with in all parts of our activity:

- Ekornes shall appear as an environmentally-friendly enterprise. Our products shall cause the least possible impact on the environment.
- Ekornes has as its objective to keep the health risk at the workplaces at a minimum.
- Ekornes invests to avoid damage to the environment and injuries to health.
- Environmental information shall be generally available, for example through Environmental Product Declarations (EPD).
- Ekornes shall give objective and open information about how the company handles its environmental responsibility.

As an objective, Ekornes will continue to develop environmentally responsible methods in order to gain a competitive advantage ahead of our competitors.

Ekornes participates in the UN's Global compact.
