Plus™ System

Finally, a moment to yourself to recharge your batteries. Watch a film, read a good book or just wind down. Lean back and notice how the chair follows your movements. The unique Plus™ system always gives you maximum comfort and support for your neck and lumbar region, regardless of whether you're sitting or lying down. The sleep function is activated with a simple hand movement, making your moments of comfort even better. Sleep tight.

Pages 36-37

BalanceAdapt™

Finding a good sitting position and allowing your body to relax, achieving a balance in life isn't always easy. With the integral BalanceAdapt™ system, the chair adjusts its seat and back angle to your movements – in perfect harmony with your body. The gentle rocking motion increases your comfort in all positions, and all thanks to your own body weight. Everything is in perfect balance, fully adjusted to your requirements whenever you need it most.

Pages 38-39

LegComfort™

As you'll agree, your legs deserve some top-class comfort after a long, hard day at work. Our unique Stressless® LegComfort™ system takes that feeling of comfort to new heights. The comfortable footrest is elegantly concealed beneath the seat but slight pressure extends it outwards, providing superlative support for your legs. Finally you can enjoy that relaxing feeling you've been looking forward to all day.

Pages 40-41

ErgoAdapt™

In the hectic whirl of daily life, having a moment to yourself is vital. Take a seat, and notice how your body sinks smoothly into the soft cushion. With the integral ErgoAdapt™ system, you can enjoy a relaxing sensation of comfort in every situation. The sofa adjusts to your body, whether you're sitting or lying down. Little by little your shoulders relax, cocooning you in comfort.

Plus™ System

BalanceAdapt™

Leg Comfort™

ErgoAdapt™

Sitting in a Stressless® recliner or Stressless® sofa is a relaxing experience. Our knowledge of comfortable sitting and movement stimulates our innovations and the desire to design the most unique furniture in the world. We offer exclusive functions that work both separately and together to bring you unrivalled comfort.

Plus™-system

Plus™ System

Relax and feel your heart rate slowing down. Imagine the ability to relax without the worry of today's stresses hanging over you.

The Plus™ system permits automatic adjustment of the support to your neck and lumbar region, allowing you to read or watch TV even when fully reclined. The Plus™ system is featured on all Stressless® recliners and high-back sofa models. Stressless® sofas with the Plus™ system also offer individually reclining seats for personal comfort.

The Glide function is integrated in the Stressless® wheel. Simply turn the wheel to select the most suitable resistance for you and you'll experience a tailored level of comfort every time you sit down.

You can also easily activate the headrest sleep function allowing you to have a ten-minute catnap or an hour long snooze – the choice is yours.

Stressless® Arion Sofa, shown in Paloma Purple Plum. Stressless® Enigma Table.

BalanceAdapt™

Plus™ System

BalanceAdapt™

Our bodies were designed for movement and variation, not for sitting still. BalanceAdapt™ gives you a unique sensation of perfect balance. The seat angle automatically adjusts to the slightest body movement as the back and seat move together in harmony.

The gentle rocking motion increases your comfort in all positions. In our recliners, this system allows you to lie back even further.

All our Stressless® recliners with Signature and Star bases come with BalanceAdapt™. The recliner also includes the Plus™ system providing optimum support for the neck and lumbar region, allowing you to really unwind with this system.

Stressless® Julia Sofa with **Long Seat** shown in Paloma Dark Olive.

LegComfort™

LegComfort™

Our unique Stressless® LegComfort™ system takes that feeling of comfort to new heights.

The comfortable footrest is elegantly concealed beneath the seat but slight pressure extends it outwards, providing superlative support for your legs. The length of the footrest can be adjusted to suit everyone. This system is available on all our Medium and Large Stressless® recliners with the Classic base.

The Stressless® LegComfort™ system is combined with the Glide and Plus™ systems, ensuring that the chair follows your movements and provides perfect support for the neck and lumbar region in all sitting positions.

This places your body in perfect balance, and believe us – it feels wonderful.

Plus™ System

Stressless® Live (M) Classic LegComfort™ Recliner, shown in Batick Metal Grey/Grey.

ErgoAdapt™

ErgoAdapt™

With the integral ErgoAdapt™ system on Stressless® E200, E300, E400, E600 and E700 models, you can enjoy a relaxing sensation of comfort in every situation.

The tilt mechanism in the seat cushion allows the sofa to adjust automatically to your body so that you sink smoothly down into the soft cushion. The neck support can be easily adjusted with a gentle tug, making the seat even more comfortable. The Long Seat has its own specially adapted headrest with the same innovative functions. All you have to do is sit back and enjoy.

From zero position to tilt position. The Stressless® ErgoAdapt® system automatically tilts the seat as you sit down – providing the perfect degree of comfort and support.

Lying down flat, no tilt. When you lie down on the sofa, the seat stays completely flat, offering exquisite comfort and giving you full advantage of the oversized seat.

The Long Seat automatically tilts down, giving your legs perfect support when seated, while staying completely flat when you prefer to lie down.

Try our famous Comfort Test,
and see why you have to experience
the magic of comfort for yourself

Can you adjust the headrest so that it lies flat when you recline?

Is your head supported comfortably as you lie down to read or watch TV?

Do you have the feeling that the seat back reclines sufficiently?

Does the chair provide good lumbar support in all positions?

Does the recliner feel stable and safe?

The ultimate sensation of comfort is individual and personal to everyone. Everyone has different needs, and that's exactly why we encourage all our customers to try a Stressless® so that you can find a recliner of the right size that suits your own personal tastes. We guarantee this will be time well spent. After all, a Stressless® recliner is an investment that you'll enjoy for many years to come.

Do the chair and ottoman move with you as you shift positions?

Are the height and width of the chair right for you?

Are you aware of how your entire body relaxes?

Is the ottoman positioned in the right place to give you maximum leg support?

Does the gliding movement smoothly adjust to your body weight?

Colors, trends and inspiration

One of the fascinating things about trends is that they never stop changing. Sometimes inspiration can come from the past or new creations and the same is true of home interior trends.

Participating in trend seminars and trade fairs helps us keep up to date with the latest colors, fabrics and interiors. We incorporate the best from these trade fairs into our collection to ensure it always remains cutting edge. We aim to provide you with a multitude of variations so you can make your home meet your own personal needs.

Our world of modern comfort now offers a wide and varied range of color schemes bringing more opportunities for personalisation. We offer color scales ranging from extremely light, almost transparent colors to sophisticated, smokey pastels. Deep, subdued earthy colors offer calm and comfort and tend to match most homes which has become a key trend. Our large collection provides you with plenty of choice allowing you to experiment with the many exciting combinations on offer.

Be inspired to mix and match some of your own color combinations.

Stressless® offers four categories of leather in a selection of beautiful colors

BATICK is a corrected, pigment-improved and grain-embossed upholstery leather, which has had most of its natural marks removed. Batick may have a two-tone color effect to liven up the surface. Batick is resistant to fading, although changes in color will occur over time due to use and exposure to light. A protective layer of lacquer simplifies cleaning. Simple cleaning, excellent durability and a reasonable price make Batick a good choice.

CORI is a corrected, pigment-improved and grain-embossed upholstery leather. Cori is somewhat thicker and has a larger pebbled grain than Batick. Most of its natural marks are removed. Also, some of the Cori colors have a two-tone color effect to liven up the surface. A protective layer of lacquer simplifies cleaning. Cori is a wise choice if you want leather with excellent durability.

PALOMA is a slightly corrected leather with a combination of dyes and pigments that smooths down some of the structure (the grain pattern) of the leather. The grain structure in Paloma may, however, vary a little on some parts of the furniture, and minor color nuances may also appear in the leather. A thin coat of lacquer gives Paloma some protection and simplifies cleaning, but Paloma does not have the same heavy-duty quality and protection as Batick and Cori. Due to its soft, natural and comfortable expression, Paloma is a very popular choice.

NOBLESSE is the most exclusive leather in the Stressless® collection. It is a full grain, semi-aniline leather, which means that the leather is dyed using a light surface treatment. This provides a certain amount of protection, while maintaining the natural softness and glow that are characteristic of a first class upholstery leather. A natural material such as Noblesse retains its original grain and structure, and various grain patterns may be visible on different areas of the furniture. Due to the light surface treatment, Noblesse is the most delicate, but also the softest and most luxurious, of Stressless® leathers. It easily absorbs moisture and is extra sensitive to wear, heat, exposure to sunlight, stains and sweat. Regular maintenance is important in order to maintain the leather's exceptional appearance.

Stressless® leather collection: Natural, beautiful and lively

Stressless® is one of Europe's largest consumers of leather. We purchase the leather from selected tanneries all over the world. Our own inspectors take part in the leather selection, which is conducted in accordance with international norms for quality determination. The experience we have gained from this work is for your benefit when you buy Stressless® leather furniture. Our leather is manufactured according to current laws, guidelines and recommendations on durability, and for the use and content of chemicals and other substances. We are cooperating with recognized international institutions in this line of business, to ensure that we are updated at all times with events relating to health, safety and the environment.

The leather for our furniture is a natural material that comes from cattle hides.

When the hide has gone through a tanning process and further processing to achieve the correct durability properties, it is called leather. One characteristic of a hide is that it is marked by nature, vegetation and the care the animal has been subjected to. Cattle spend most of their lives outdoors, and will therefore be marked by external influences like insect bites, tears, scars, wrinkles, stretch marks, etc.

The following are some of the properties of leather that you should be aware of:

Leather is a natural product and is a beautiful and lively material used in furniture making. Each hide is unique in its structure, appearance, nuance and size. Ekornes may use several hides when making your furniture. This, together with the leather's play of colors and natural marks, makes each piece of furniture unique. In time, the leather will age and gain patina. It is important that you are aware of one thing: although leather furniture can withstand a lot of wear and tear, its appearance will change with the years.

The following applies to all types of leather used by Stressless®: Hide absorbs dyes differently and therefore the leather may have color nuances. These are due to dissimilarities and different fiber structures, which affect the coloring of the hide and how the hide absorbs the dyes during the tanning process.

All our leather qualities are deep-dyed, but there could always be a deviation between the basic color of the hide (the color of the side that faces the upholstery side of the furniture), and the color of the grain side (the external side) i.e. the color of the outer layer. This is normal. It is possible to use the same basic color for leathers with different top colors.

Dyes and dyeing methods may vary between the different leather colors and leather qualities. Therefore, the basic color and the color of the top layer (which forms the wear layer and the final desired color of the finished product) of a given leather quality may differ.

Some of the leather dyes have a two-tone color effect (shadow/antique effect). Leather dyed with a two-tone effect may change character faster and wear more unevenly than leather with just one color. This applies in particular to areas of the furniture that are exposed to harder wear such as armrests, seat cushions and neck supports.

The top layer protects the leather and simplifies cleaning, but is nonetheless vulnerable to soiling and wear. If the top layer/top color is destroyed, the leather may deteriorate faster. Penetrating spills/damage/scratches are normally irreparable and may result in the top color changing character, cracking or peeling off.

Please note that denim clothing and jeans may leave color on the leather, which is difficult to remove without risking destruction of the top color of the leather. Light leather colors, in particular, are vulnerable to such color contamination.

All furniture leather sold by Ekornes is resistant to light, but changes in color may occur as a result of use and extensive exposure to light. Consequently, furniture should not be exposed to direct sunlight or direct heat from heaters and other sources of heat. Leather is vulnerable to exposure to oils from direct contact with human skin (especially of the neck and hands).

Remember: leather has a relatively long life span, but can easily be destroyed by incorrect handling.

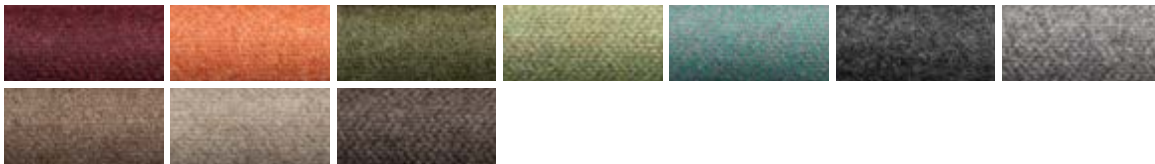

Stressless® fabric collection

Our specially selected fabric collection meets the most severe requirements in the furniture trade. Stressless® fabrics are produced according to strict conditions with respect to nature; they are also prepared for heavy-duty use, light tolerance and flammability. Choose from all ranges in a wide selection of colors that match your interior.

Please note that color changes will occur with time, as a result of use and the effect of light. You should always protect your furniture from direct sunlight. To prolong the life and appearance of your chair or sofa, the fabric upholstery should be regularly cleaned.

Stressless® John Recliner
shown in Calido Dark Grey.
Stressless® Urban Small Table.

Calido is a wool felt fabric with an exclusive appearance, which feels comfortable and soft against the skin. It is available in a varied and exclusive color palette.

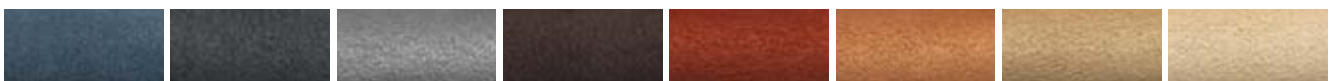

Crocus is a flatwoven fabric with a look that's subtle and appealing. This fabric suits most models. It's a timeless classic, a fact also reflected in the selection of colors available.

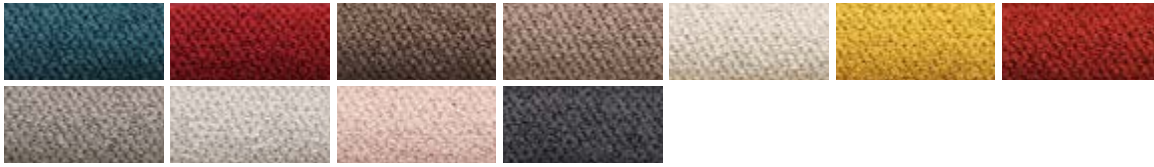

Dahlia has a slight sheen to its surface, which gives the fabric an exclusive and elegant look. The fabric feels soft, cosy and inviting. The attractive color palette emphasises the classic and timeless appeal of the fabric.

Dinamica is a well-known microfibre-quality fabric with an appearance resembling chamois leather. This is soft and very comfortable, breathable and non-static. Easy to keep clean and highly wear resistant.

Faron is a bouclé fabric. It has a rough, coarse structure but still feels soft and comfortable against the skin. The weave of this fabric makes it extremely strong and hardwearing, with good durability. The fabric has an even color tone and is available in a broad range of colors.

Grace is a velour with a medium length pile. The soft, silky texture has a fine sheen and provides an attractive interplay of colors. Grace is hardwearing, comfortable to sit on and easy to keep clean.

Iris is a classic yet trendy bouclé. Several colors are woven into the fabric, allowing exciting color combinations with other fabrics or leather. The tiny loops in the fabric may naturally lose their springiness over time, so regular vacuum-cleaning is important to help the fabric retain its beautiful appearance for many years to come.

Ivy is a flat-weave fabric with subtle nuances in the surface. The attractive two-tone effect gives the fabric a comfortable look. Ivy offers excellent durability and is easy to keep clean.

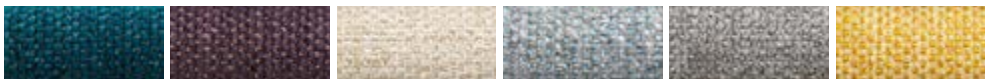

Jasmine has a fine, softened structure which makes the surface appealing. We've selected a range of dusty, subdued colors that can easily be combined with colors from our leather collection.

Karma is a flatwoven fabric with multi-coloured thread, which provides a soft and harmonic melange effect and a vivacious appearance.

Linden has a strong structure. The weave includes threads in different shades and with various levels of shine, providing attractive, subtle variations in the surface.

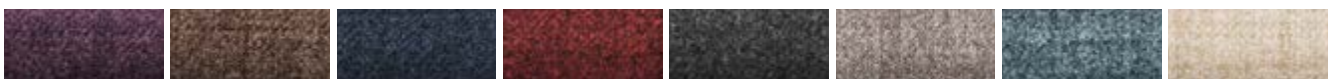

Silva is a pure and timeless wool fabric that feels comfortable against the skin. This fabric is available in a muted and classic color palette.

Verona is a velour fabric with short pile. This fabric may appeal to anyone who prefers a less glossy surface. Verona is wear resistant, comfortable and easy to keep clean.

York looks attractive and is soft, cosy and comfortable. This fabric is suitable for both firm and soft models and is available in a fine range of stylish, subtle colors. This fabric is therefore a good fit for most homes, and is also easy to keep clean.

3 select leather/fabric and wood type

The final brushstroke on a painting can make all the difference. You have eight different wood colors to choose from in addition to the wide range of colors and qualities in our leather and fabric collection. See the overview of leather and fabric types on pages 48-51.

Stressless® wood colors
Ekornes uses rotary cut beech veneer in all its moulded furniture components. Lightly steamed beech is used for solid wood components. The hardness of the wood makes beech furniture extremely durable, and the timber we use is a renewable resource. Beech is a natural material and variations in its pattern, color and texture make each piece of furniture unique. Although beech is used for both solid and moulded components, structural differences may be visible.

Stressless® accessories

Signature elevator-kit

When you want additional height on your Stressless® with Signature Base, you can order an elevator-kit, which is easily inserted and will increase the height of your chair by 1 ¼".

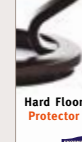

Classic elevator ring

The Stressless® elevator ring adds an extra 1 ¼" sitting height to Classic base recliners, and is your key to comfort if you need extra height. Just snap it on: no tools required. The Stressless® ottoman elevator ring adds 1 ½" to the height. Fits all footstools produced after 1 March 2004.

Hard Floor Protector

Self-adhesive felt for use under the base as floor protection. For Classic base.

Stressless® Leather and Fabric Care kits

To match the high quality of our furniture, Ekornes now offers its own leather and fabric (including microfiber) care series.

The Stressless® Leather Care kit (medium and large) and the Stressless® Leather Care Wipes contain a leather cleaner, a protection cream and wipes. For nurturing, and making the leather more resistant to stains, the protection cream should be applied to all leather surfaces when your recliner is new. For later treatment, in addition to regularly removing stains, we recommend that the leather is cleaned with the Stressless® Leather Cleaner at least every 6 months. Always apply protection cream after cleaning.

Please see www.stressless.com for further information about maintaining your leather furniture. The Stressless® Fabric Care kit contains a fabric cleaner, a stain remover and 'Ox cleaner'.

This kit gives you everything you need to clean a piece of furniture in just minutes, without removing the fabric cover. For resistant stains, use the Fabric Cleaner together with the Stain Remover and 'Ox Cleaner'.

These are the only cleaners Ekornes will approve. Ekornes will decline all responsibility in cases where other products than those approved by Ekornes have been used to maintain your leather and fabric furniture.

Comfort on wheels

Our line of Stressless® Home Office chairs are our contribution to a truly satisfying home office experience. Your back deserves the same amount of relaxation while working, as while relaxing. The simple truth is if your back is enjoying itself, your mind works better. The combination of the comfort of a Stressless® recliner and the mobility of a wheeled office chair provides you with the ability to get the job done, without the stiffness in your back at the end of the day.

The Stressless® Home Office chairs have the same comfortable function you will find in our other recliners. It comes with the Plus™-system, where the headrest and lower back support have synchronous adjustment. It also has a simple height-adjustment using the handle under the seat. For optimum comfort and excellent freedom of movement.

Proudly designed in Norway
Assembled in USA

Create your dream sofa

Your sofa is the focal point of your home, the place where you come back to earth after a long day. Whether you sit on your sofa to discuss the day's news over a cup of coffee, or relax there with a good book, or settle back for an evening of entertainment in front of the TV, the sofa is the hub in your home. You can combine modules of your choice, select different wood types and choose from our luxurious leather and fabric collections to create the sofa of your dreams. And with so many unique options, all your requirements can be met and you'll find the perfect furniture to match your home.

1 select model

Choose from our range of designs and sizes to quickly discover optimum comfort.

2 select layout

Whether your living room is big or small, our layouts can be easily adapted to fit. You're in charge here. Take a look at stressless.com to view all the layout options and dimensions available.

Try our Stressless® configurator on stressless.com

3 select leather/fabric and wood type

The final brushstroke on a painting can make all the difference. You have eight different wood colors to choose from in addition to the wide range of colors and qualities in our leather and fabric collection. See the overview of leather and fabric types on pages 48-51.

Natural	Oak	Walnut	Teak
Brown	Wenge	Black	Grey

Stressless® wood colors

Ekornes uses rotary cut beech veneer in all its moulded furniture components. Lightly steamed beech is used for solid wood components. The hardness of the wood makes beech furniture extremely durable, and the timber we use is a renewable resource. Beech is a natural material and variations in its pattern, colour and texture make each piece of furniture unique. Although beech is used for both solid and moulded components, structural differences may be visible.

Stressless® Home Theater

You move more than 300 times during the length of a movie. But do not despair – the spacious, soft seats in your Stressless® Home Theater solution, combined with the Stressless® ottoman ensures an optimal movie experience.

Regardless of how much available space you have for your home theater setup, there is always a place for a Stressless®. The geniality lies in the flexible modules. Find out more about the many options available at stressless.com.

Stressless® Home Theater is completely customizable to fit the size of your room. Choose between high-back or low-back seats, clever Sector arm rest with storage space and ottomans to complement our viewing experience.

Stressless® Pause SCA 121 shown in Paloma Black. Stressless® Double Ottoman.

The Stressless® Double ottoman features ample leg room for two, plus ample storage space inside. It also comes with an optional wooden table top, which can be placed on the ottoman – as a handy table when needed. The Stressless® Oval Ottoman (page 70) has been built around the same general idea – with its removable pillow, the ottoman also acts as a convenient table. The pillow can be stored underneath the table top when not in use.

The clever sector tables and armrests complete the Stressless® home cinema setup, both functionally and aesthetically. No need to get up! Now everyone can keep their own giant bowl of popcorn, or selected beverage, within reach. The clever armrests double as practical storage places and so do the Stressless® ottomans.

Tables and ottomans

All our tables and ottomans have been expressly designed to match the unique sense of comfort which is the very essence of Stressless®.

STRESSLESS® ENIGMA TABLE
A minimalist glass table with aluminium frame.
Ø:35½" H: 17¼"

STRESSLESS® URBAN TABLE
The stylish Stressless® Urban glass table is a versatile complement to any room. Choose between a larger sofa table edition and a practical small edition to place next to your Stressless® recliner.
Ø:35½" H:19" / Ø:21¾" H:19"

STRESSLESS® STYLE
A graceful coffee and side table in wood, available in several color combinations. The slight height difference means these tables can be combined in several ways, either away from each other or up to each other. The tabletop is made from MDF with a melamine surface, available in white, black and cream. Wooden legs in black, natural and brown.
W:54" L:23½" H: 18½" / Ø:21¾" H: 20½"

EKORNES® WINDSOR TABLE
Enhance the décor of your home with our Windsor table. It features sleek, simple lines with a shelf below, perfect for storing remotes, books and magazines. The Windsor table is designed to complement both the Windsor and Buckingham series.
L:52" W:27½" H:19"

STRESSLESS® USB TABLE A
A versatile table with USB connection, which fits all Stressless® chairs perfectly. Available in various combinations of glass and wood colors, with the column in black or chrome.
W:20½" D:16½" H:19¾"-28¾" (adjustable)

STRESSLESS® USB TABLE B
A versatile table with USB connection, which fits perfectly between two Stressless® chairs. Can also be used in front of chairs with a Star base. Available in various combinations of glass and wood colors, with the column in black or chrome.
W:20" D:19¾" H:19¾"-28¾" (adjustable)

EKORNES® ELLIPSE TABLE
Flexible and easy-to-move, our Ellipse table keeps everything at hand wherever you choose to sit. Simply slide it in close, to maximize your comfort zone.
W:15" D:19¼" H:19"-28"

EKORNES® CORNER TABLE
The free-standing Corner table fits perfectly between two Stressless® recliners, two sofas or a recliner and sofa. An ideal solution for home theater seating, or for any grouping when space is at a premium.
L:27¼" H:19" W:23½"

STRESSLESS® EASY ARMREST TABLE

This table is made for the Stressless® Arion and E200. Place the armrest for convenience when sitting and relaxing, or simply take it off or move it when not in use.
W:9¾" H:4" D:9"

STRESSLESS® SWING TABLE

The Stressless® Swing table is a practical and innovative accessory that heightens your state of comfort in a Stressless® recliner. This small, versatile, table carries your remote, cup, book or whatever else you keep handy. Ø:11"

STRESSLESS® PERSONAL TABLE

The ultimate solution to comfort online is the Stressless® Personal Table. It provides a firm and stable workspace directly above your lap. When you're finished, simply swing the table aside and fold it down alongside the recliner. W:16¼" D:12¼"

STRESSLESS® DOUBLE OTTOMAN

The Double Ottoman has plenty of leg room for two, plus ample storage space inside. The optional table top serves as a handy refreshment table that can be placed on the ottoman when needed. W:47"-60½" H:17½" D:24"

STRESSLESS® OVAL OTTOMAN

The Stressless® Oval Ottoman has a removable pillow, thus doubling as a convenient table. When you don't need it to rest your feet on, simply store the pillow below the tabletop. W:35½" H:18½" D:19"

STRESSLESS® OTELLO

A sturdy ottoman supplied with base in aluminum or laminated beech. W:39½" H:17¾" D:19¾"

W:20" D:15¾" H:17¼"

W:23½" D:23½" H:17¼"

W:21" D:19¼" H:17¼"

W:25¼" D:27½" H:17¼"

STRESSLESS® MODERN AND STRESSLESS® SOFT OTTOMAN

Our ottoman is ingenious in at least two ways. It has a built-in tilt system, which makes sure the angle of the ottoman is adapted to your sitting position. It also has room for all the extras, under its removable top. The ottoman comes in two sizes.

Plus™ System

The patented Stressless® Plus™ system automatically adjusts the headrest as you recline – supporting your neck while you read, watch TV and rest.

The Plus™ system adjusts the lower back support simultaneously with the headrest. Upright or reclined, you're always perfectly supported.

Lower the headrest to the sleep position with one simple movement.

Adjust the Stressless® Glide wheels to the setting of your desire. You can automatically shift to any seating position simply by using your body weight.

Discover the secrets of personal comfort

1. The perforated foam is molded directly over the frame. The indentations in our new Comfort-Zones™ technology let your body sink deeper into the seat, giving you an overall embraced feeling for even more enhanced personal comfort.
2. An additional pad of soft space-age foam ensures optimum comfort.
3. Super-soft polyester fiber cushions your body and ensures an attractive look.
4. Durable steel frame and flexo springs for superior resilience and continuous support.
5. Plus™ system provides continuous support for your head and lower back. Double-sided mechanism ensures maximum stability and functionality.
6. Genuine top-grain leather or fabric covers the entire seat, for a luxurious look and feel.
7. Unique Stressless® Glide system automatically adjusts to your body weight.
8. The different bases provide full stability and 360° swing.
9. Frame in laminated beech. All colors are stained and finished.

Ekornes and the environment

The objective of Ekornes is to accept environmental responsibility related to manufacturing, distribution and use of the company's products.

We will continue to implement initiatives in our factories that improve the internal and external environment, at the same time as we continue to select environmentally-friendly raw materials.

A sustainable manufacture of durable products will also be an objective in the development of our company.

The following core items shall be complied with in all parts of our activity:

- Ekornes shall appear as an environmentally-friendly enterprise. Our products shall cause the least possible impact on the environment.
- Ekornes has as its objective to keep the health risk at workplaces at a minimum.
- Ekornes invests to avoid damage to the environment and injuries to health.
- Environmental information shall be generally available, for example through Environmental Product Declarations (EPD).
- Ekornes shall provide objective and open information about how the company handles its environmental responsibility.

As an objective, Ekornes will continue to develop environmentally responsible methods in order to gain a competitive advantage ahead of our competitors.

Ekornes participates in the UN's Global compact.

The pleasure of comfort

Since 1934 we have had the pleasure of filling homes all around the world with comfort. This has made Stressless® one of the best known brands in the furniture industry. The passion for details and innovative solutions shared by all our employees, enables us to create new systems that will give your body the best possible sitting experience, while also providing your rooms/living rooms with an impressive appearance.

There are many reasons why our furniture is so comfortable. It has to do with the people, the choice of materials and all the innovative solutions we have put into production. The landscape that surrounds us also plays a big role in defining what we produce. The majestic peaks and endless fjords set our minds at ease and is the perfect medicine on the most stressful of days. If you have not visited the fjords yet, but want a taste, even just a small one, we recommend giving Stressless® a try. It may very well be the closest you'll ever get to the bliss of pure comfort.
