

IT'S TIME FOR
Stressless[®]
2020

It's about time for you.

Time is a precious commodity. Our days are busily packed with the essential tasks that life invariably brings. It seems no matter how hard we try, there is never quite enough time to balance work, life and play. Modern living is busy — we are 'switched-on' for more hours than ever before and the day-to-day pressures can leave us feeling exhausted. Relaxation is essential for our overall well-being but if we don't plan for it, it's all too easy to miss out. We need downtime. Time for ourselves. Time to listen to our bodies. To rest and reenergize from the day. It's time to make time for you.

It's time for Stressless.®

Why Stressless®?

Stressless® is the most comfortable seating in the world. A bold statement, yes, but one that is very much true. The difference lies in our patented comfort technologies. BalanceAdapt™. Power™. Plus™-system. ErgoAdapt™. Glide system. These innovations satisfy our endless quest to create recliners, sofas, office chairs and dining chairs that provide perfect support while replicating the body's every movement. Add in the ability to select between three recliner sizes or tailor a sofa with low back, high back and headrest options and the result is a level of fit and comfort one can only feel when spending time in a Stressless®.

Norwegian quality since 1934.

A small town in western Norway, by a fjord surrounded by majestic mountains and natural beauty, is where the Stressless® magic happens. This serenity inspires our unique designs. Craftsmanship and the love of furniture production has been passed through generations and it's this passion and commitment to quality that makes Stressless® the most comfortable furniture in the world.

The Innovators of Comfort™

Our heritage in furniture making combined with innovative production, using the finest of materials and environmentally friendly processes, means we create beautiful furniture that will last for many years to come. Under the surface of supple leather and beautifully soft fabric lies true engineering genius. From multifaceted sets of springs, to foam that contours to your body — every feature contained within Stressless® furniture is expertly designed to bring you an unbeatable feeling while seated. The human touch of our skilled craftsmen ensures that every delicate detail of your tailor-made order is perfect.

RECLINERS

It's time for me.

Although comfort and style are universally understood, they are experienced differently by each individual. That's why we make creating a Stressless® recliner a highly personal experience.

In addition to the many styles, base options, leathers, fabrics and colors you can choose from, many of our recliners come in multiple sizes for the perfect fit. Add in our innovative comfort technologies that you won't find in any other seating and you have a recliner that feels and looks tailor-made for you.

Design your dream chair.

To help you find the recliner that's right for you, we now offer more options than ever before. And, as most of our Stressless® recliners are available in three sizes, everyone can experience total relaxation, whatever their height or body shape. There are also a wide range of bases, wood finishes, luxurious leathers and fabric collections, so you can create the chair of your dreams.

Small

Medium

Large

Select a base and enjoy the features.

There are five different bases to choose from.

Classic base

The incredible stability and timeless design of this classic base has provided unbeatable comfort for decades.

S, M and L

Signature base

With its gentle rocking motion, this stylish aluminum and wood frame is a treat for the eyes and the body.

S, M and L

Power™

An elegant footrest is hidden under the seat. Lightly touch the buttons and it swings out to give optimum support.

M and L

Star base

Maximum comfort on a minimalist aluminum base. Simply rock and relax.

M

Office base

Now you can enjoy the advantages of a Stressless® recliner with the mobility of a wheeled office chair.

Finally, choose your fabric or leather.

Put your feet up.

Take that feeling of comfort to new heights with a separate ottoman or our unique Power™ system. Our ottomans adjust to your movements for the ultimate comfort factor while our Power™ system is elegantly concealed beneath the seat. The light touch of a button elevates the concealed footrest, providing the perfect support for your legs.

It's time to take our comfort test.

Is your head supported comfortably as you lie down to read or watch TV?

Do you have the feeling that the seat back reclines sufficiently?

Does the recliner feel stable and safe?

Do the chair and ottoman move with you as you shift positions?

Are the height and width of the chair right for you?

Are you aware of how your entire body relaxes?

Is the ottoman positioned in the right place to give you maximum leg support?

Can you adjust the headrest so that it lies flat when you recline?

Does the chair provide good lumbar support in all positions?

Does the gliding movement smoothly adjust to your body weight?

The ultimate sensation of comfort is individual and personal to everyone. Because we all have different needs, we encourage you to take our Stressless® Comfort Test to find the size and model that fits you best. We guarantee this will be time well spent. After all, a Stressless® recliner is an investment you'll enjoy for many years to come.

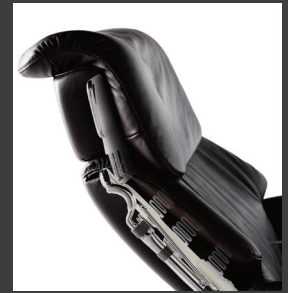

Discover the secrets of personal comfort.

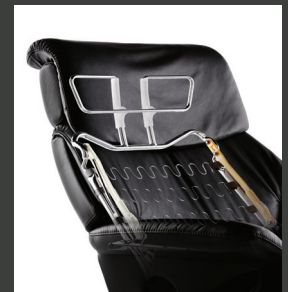

1. The perforated foam is molded directly over the frame. The indentations in our Comfort Zones™ technology let your body sink deeper into the seat, giving you an overall embraced feeling for even more enhanced personal comfort.
2. An additional pad of soft space-age foam ensures optimum comfort.
3. Super-soft polyester fiber cushions your body and ensures an attractive look.
4. Durable steel frame and flexo springs for superior resilience and continuous support.
5. Plus™-system provides continuous support for your head and lower back. Double-sided mechanism ensures maximum stability and functionality.
6. Genuine top-grain leather or fabric covers the entire seat, for a luxurious look and feel.
7. Unique Stressless® Glide system automatically adjusts to your body weight.
8. The different bases provide full stability and 360° swing.
9. Frame in laminated beech.

All colors are stained and finished.

MECHANISM

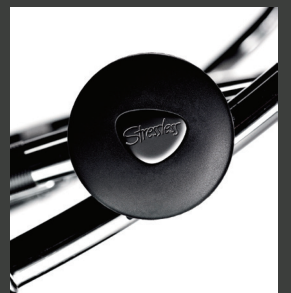

The patented Stressless® Plus™-system automatically adjusts the headrest as you recline – supporting your neck while you read, watch TV and rest.

The Plus™-system adjusts the lower back support simultaneously with the headrest. Upright or reclined, you're always perfectly supported.

Lower the headrest to the sleep position with one simple movement.

Adjust the Stressless® Glide wheels to the setting you desire. You can automatically shift to any seating position simply by using your body weight.

SOFAS

It's time to lean back.

When buying a new sofa, many people begin with design, color, fabric and size. Aesthetics are important, but great design is much more than what meets the eye. Stressless® furniture goes deeper than the surface. We focus as much on functionality and comfort as we do on style. How the sofa adjusts to you and the feeling of complete well-being and support it gives. This is what makes the difference between a good seat and an unbeatable one.

Take comfort to another level.

Lean back, relax your shoulders and feel your stresses melt away. Whether reading the paper, entertaining friends or just closing your eyes and taking a well-deserved break, a superior sofa will help you appreciate this valuable time even more. Enhance the feeling of comfort with our BalanceAdapt™-system where subtle rocking motions help balance and increase overall comfort. Our Stressless® Stella modular sofas provide the perfect fusion of style and comfort. The built-in BalanceAdapt™-system allows the seat to move with you. Recline, lean forward, lie down or put your feet up and feel how the soft and generous seat adapts to your every movement. And when the occasion calls for a regular sofa, you can easily lock the function to stop the seat from moving.

Take a seat.

Arion adjusts to your body the moment you take a seat. The patented Plus™- and Glide systems provide the perfect seating angle for truly customized support and the ultimate individual comfort. Whether you sit up or lie down, the Plus™- system provides optimal comfort and support for your head and lumbar region. Available in a three seat, two seat and one seat sofa. The Arion collection also comes with a choice of high or low back. Visit stressless.com to see other Stressless® sofa designs with Plus™- and Glide systems.

Modern and inviting.

The Stressless® Aurora sofas with Plus™-system add finesse to your living room. A modern and sleek design with soft cushioning gives Stressless® Aurora an inviting and contemporary look. This sofa is available as a high back and a low back version with individually adjustable seats. Choose wooden legs in three different heights.

Refined comfort.

The Stressless® Manhattan and Stressless® Oslo indulge those with an evolved sense of style. Cosmopolitan and elegant, they feature gently sloping contours, a fixed back, overlapping arm details and an exposed wood finish. The Stressless® Manhattan is available in a three seat sofa, loveseat and chair while the Stressless® Oslo is available in a three seat, four seat and sectional sofa.

DINING

It's time to dine comfortably.

Dining chairs can be notoriously uncomfortable, especially when you're sitting down for a long meal. But not Stressless® dining chairs. Ours work with the body, not against it.

Designed with the soft, gentle rocking motion of BalanceAdapt™ system, Stressless® dining chairs are the only ones that move in three different ways. They're so comfortable, they can transform a seldom used dining area into an extremely desirable destination.

The unique Stressless® dining chair responds to your body's movements and automatically adjusts the seat and back position, without levers or handles. When you lean forward, the seat angle reacts to your movement and immediately reduces the pressure under your legs, while supporting your back. If you want to completely relax, you can lean back. The seat will slide forward providing an open and supremely comfortable seating position. The chairs are customizable and come with high or low back options in three cushion variants and are available in a selection of stunning fabrics and leathers. The chairs also have leg options in two wood designs, allowing you to design that chair that fits your style and decor.

It's time to create.

RECLINER FUNCTIONS

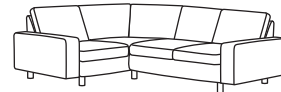

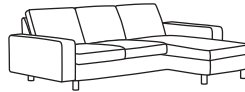

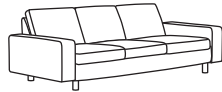

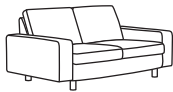

All our recliners have the unique Plus™-system and Glide system so you can lean back and get a comfortable reclining position in an effortless manner. If you want to add the BalanceAdapt™-system or choose an integrated Power™-system over a separate ottoman, you will be able to filter these choices.

HIGH OR LOW BACK

Many of our chairs come with both a high back and a low back option. With Stressless® the choice is yours.

SOFAS

Customize your sofa to fit your living room. Choose between a wide variety of our sizes and modules.

SOFA FUNCTIONS

Choose the functionality that fits your needs. A fully reclining Plus™-system sofa, a tilting BalanceAdapt™-system sofa or a sofa with the ErgoAdapt™-system that gives you that little extra comfort for both sitting and lying down.

ARMRESTS

Some of our designs allow you to choose between different armrests, all of them with various options for material and shape of legs. Together with options for leather and fabrics you will be able to design a sofa according to your personal taste.

DINING

Design your own dining chair by choosing between our two leg options in wood. All of our dining chairs come with both high and low back, you can choose either one, or create your own mix. To make the dining area even more comfortable we have also designed Stressless® dining sofas.

All great choices, naturally.

Being one of the world's largest premium furniture manufacturers comes with responsibility. All our leather is manufactured in keeping with current laws and guidelines for animal welfare, health, safety and the environment. We work alongside recognized international institutions to ensure that we are always up-to-date and to assist in the leather selection process from our chosen tanneries. We maintain the highest of standards here, so that you can rest assured in the choice you are making — regardless of texture, softness, color and how you want the leather to look and feel. We offer many types of leather — from the most exclusive and delicate to the more robust quality.

Wood finishes.

On many of our collections, natural wood finishes add another touch of luxury. Depending on the model, you can choose from eight finishes. As a natural and renewable resource, subtle variations in wood pattern and color make each piece unique. As well as being attractive, beech makes our furniture extremely durable.

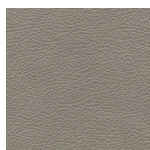

BATICK LEATHER

A corrected leather with a uniform pattern and many of its natural marks removed. Batick is resistant to fading, but changes will occur over time due to use and light exposure. The price and durability makes it a good choice for most homes.

CORI LEATHER

Noticeably thicker with a larger pebbled grain effect than Batick, this grade is corrected with a uniform pattern, so most of its natural marks are removed. This creates a robust leather with many excellent properties including durability and easier cleaning.

PALOMA LEATHER

Slightly corrected, a combination of dyes and pigments smooth down some of this leather's pattern, although some minor grain and color nuances may vary. Marks, scars and insect bites are part of Paloma's look.

NOBLESSE LEATHER

Our most exclusive leather is a full-grain semi-aniline, dyed using a light surface treatment. With the natural softness and characteristic glow of a first-class leather, Noblesse keeps its original grain, meaning minor color variations, marks and scars may be visible.

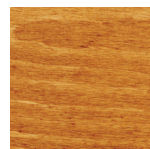

PIONEER LEATHER

Full-bodied leather with good tear resistance and a delicate aniline pull-up finishing. The natural quality of this leather gives it medium-low resistance for color fastness to light and rubbing, and a natural appeal that becomes more beautiful with age.

Stressless® fabrics, available in a wide variety of colors and qualities, are put through some of the most rigorous tests in the industry and meet our high demands of durability, light sensitivity, fire safety and environmental friendliness.

Stressless® and the environment.

Caring for the earth isn't something we only think about occasionally. Nor is it a claim we make or a cause we advocate to gain social approval. At Stressless®, being environmentally friendly is how we, as Norwegians, live every day and a philosophy that we instill into every piece of Stressless® seating we make.

We are committed to using materials that are sustainable and manufacturing processes that have a low environmental impact. This includes using recyclable packaging materials and eco-friendly paints, lacquers, textiles and wood, employing a closed loop system that cleans steel without releasing toxins and making products that last for many decades, not just a few years.

By preserving the cold, crystal waters we sailed for centuries and the land we farmed and hunted for generations, not only are we protecting our past, we're paving the way for a bright future.

RECLINER ACCESSORIES

Classic Elevator Ring

If you'd like to add a little extra height to your recliner or ottoman, Stressless® elevator rings are the answer. Simply snap on the rings to increase the height of both by 1.5 inches.

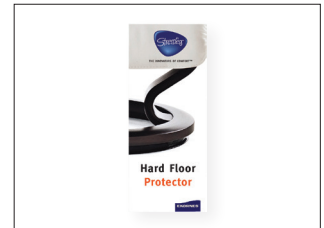

Signature Elevator kit

If you have a Stressless® Signature base, this easy to attach kit increases the height of your recliner by 1.2 inches. Which can make a real difference in your level of comfort.

Leather & Fabric Care kits

To keep your Stressless® looking its best and to ensure long life, we offer our own specially formulated care kits, which match the high quality of our furniture. These are the only cleaning products recommended by Ekornes.

Hard Floor Protector

Easily attached to a Classic base, this self-adhesive felt protects your floor.
