

IT'S TIME FOR
Stressless[®]

50
YEARS OF
EXCLUSIVE
COMFORT

50 years of...
Exclusive Comfort

On the west coast of Norway, in the small community of Sykkylven, lies the company who has created the world's most comfortable chair for generations – and still does.

In 1971, a revolutionary recliner was introduced that set a new standard in comfort and functionality. Stressless® was designed to offer maximum well-being and precious me-time in a busy, modern world. And with equal parts inspiration from nature and the region's tradition of skilled craftsmanship, Stressless® got off to a flying start. 50 years later, Norway's largest furniture exporter is still located by the fjord and still offers you exclusive comfort, assembled by hand.

50 years of...

Craftsmanship

This is the story of how experiences and craftsmanship through generations go hand in hand with advanced technology

Stressless® builds on decades of knowledge and insight to offer incomparable seating comfort for future generations. Years of studies in human anatomy and technological innovation are converted into beautiful designs by skilled craftsmen, while advanced production robots handle the repetitive, tough tasks with an incredible degree of precision.

Comfort that lasts

At Stressless® we make quality products that will last you a lifetime. Our raw materials are selected with the utmost care and consideration to give the furniture endurance. Choosing a high-quality product extends its lifespan and lowers the environmental impact, making design just as important. With our focus on timeless pieces, we create Stressless® icons to last.

Why Stressless®?

Take a seat and relax. When you do this in Stressless® furniture, we hope you'll notice the difference between our furniture and everything else. The difference lies in our patented comfort technologies: BalanceAdapt™. Power™. Plus™-system. Glide™-system.

Our vision is to create recliners, sofas, office chairs and dining chairs that provide perfect support while replicating the body's every movement. Add in the ability to select between three recliner sizes, or tailor a sofa with low back, high back and headrest options, and the result is a level of fit and comfort one can only feel when spending time in Stressless® furniture.

Far west in our elongated country, you find a beautiful place surrounded by deep fjords and majestic mountains. These are the surroundings where we find the inspiration for our unique designs. In this village, the craftsmanship and passion for furniture has been passed through generations – all the way back to 1934.

10-year internal mechanism & construction guarantee

We guarantee the internal mechanism and construction of our recliners and sofas for a period of 10 years from the date of initial delivery to the consumer. The 10-year guarantee covers the mechanical functions in the recliner/sofa. The 10-year guarantee covers the internal framework of steel and/or wood, including the metal springs. The 10-year guarantee does not cover damage to leather, woodwork or any faults or damage caused by the use of the product other than in accordance with the manufacturer's recommendations, as well as any faults or damage arising from any repairs made by any persons not authorized by the manufacturer or use of non-original parts. Some natural settlement and indentation in the padding and foam is considered normal and is part of a break-in process.

We guarantee all electrical parts and motors on the Power™ system for a period of 5 years from the date of initial delivery to the consumer. The battery is not included in the 5-year guarantee.

2 YEAR GUARANTEE on Power Batteries for a period of 2 years from the date of initial delivery to the consumer. This guarantee only applies to the battery units offered by Stressless®; use of 3rd party batteries with Stressless® products will void the entire Stressless® warranty.

We guarantee all leather or fabric upholstery including stitching and zippered assemblies for a period of 1 year from the date of initial delivery to the consumer.

See stressless.com/warranty for complete warranty details.

RECLINERS

50 years of me time

Discover the secrets of personal comfort.

1. The perforated foam is molded directly over the frame. The indentations in our Comfort Zones™ technology let your body sink deeper into the seat, giving you an overall embraced feeling for even more enhanced personal comfort.
2. An additional pad of soft space-age foam ensures optimum comfort.
3. Super-soft polyester fiber cushions your body and ensures an attractive look.
4. Durable steel frame and flexo springs offer superior resilience and continuous support.
5. Plus™-system provides continuous support for your head and lower back. Double-sided mechanism ensures maximum stability and functionality.
6. Genuine top-grain leather covers the entire seat, for a luxurious look and feel.
7. Unique Stressless® Glide system automatically adjusts to your body weight.
8. The different bases provide full stability and 360° swivel.
9. Base is made of 32 layers of laminated European beech.

It's time to take our comfort test.

The ultimate sensation of comfort is individual and personal to everyone. Because we all have different needs, we encourage you to take our Stressless® Comfort Test to find the size and model that fits you best. We guarantee this will be time well spent. After all, a Stressless® recliner is an investment you'll enjoy for many years to come.

- Can you adjust the headrest so that it lies flat when you recline?
- Is your head supported comfortably as you lie down to read or watch TV?
- Does the chair provide good lumbar support in all positions?
- Do you have the feeling that the seat back reclines sufficiently?
- Does the gliding movement smoothly adjust to your body weight?
- Does the recliner feel stable and safe?
- Do the chair and ottoman move with you as you shift positions?
- Are the height and width of the chair right for you?
- Are you aware of how your entire body relaxes?
- Is the ottoman positioned in the right place to give you maximum leg support?

Stressless® Aura (M) Signature
Paloma Black/Matte Black/Black

The patented Plus™-system

The patented Stressless® Plus™-system automatically adjusts the headrest as you recline – supporting your neck while you read, watch TV and rest.

The Plus™-system adjusts the lower back support simultaneously with the headrest. Upright or reclined, you're always perfectly supported.

Lower the headrest to the sleep position with one simple movement.

Adjust the Stressless® Glide wheels to the setting of your desire. You can automatically shift to any seating position simply by using your body weight.

Size matters.

Style and comfort are individual. It's only natural, since we all come in different shapes and sizes.

Six different bases are available for our recliners: Classic, Classic Power™, Signature, Cross, Star and Office Base. The Classic base offers stability. For soft rocking motions, the Signature and Star Base are ideal. Optimal comfort is also about finding the right size of chair. Most Classic, Signature and Cross Base chairs come in three different sizes, and all the well-known Stressless® benefits are of course included.

Our newest Stressless® recliners, Stressless® Max and Mike also come in three different sizes with the new Moon base in stainless steel and laminated beech.

RIGHT SIZE MATTERS. Optimal comfort is also about correct size. Most of our Stressless® recliners are available in three sizes so everyone can experience total relaxation, whatever their height or body shape - as shown here with the Stressless® Magic Recliner.

The individual ottoman.

Stressless® free-standing ottomans will always be classic pieces of furniture and the perfect partner for our chairs and sofas. Since all Stressless® furniture is designed, engineered and handcrafted to exemplary mechanical precision, why would we make a stool that is any less advanced?

When you lean back in a recliner chair, your legs move forward and down. Most traditional, flat ottomans do not support this sitting position. Free-standing Stressless® ottomans have a built-in sliding function that automatically follows the movement of your legs, giving you the freedom to move while staying completely supported and making the world's most comfortable recliner even better. What's more, in a locked position our ottomans can be used as an extra seat.

PLUS™ SYSTEM. Whether you are sitting or lying down, our unique Plus™ system provides optimal comfort and support for the lower back and head in all positions. The lumbar support automatically adjusts as you recline. You can also choose between an active or rest position for the neck.

Stressless® Signature Bases.

Stressless® Signature Bases are unique, incorporating our patented BalanceAdapt™ functionality for a feeling of complete comfort that you will not find with any other base. The innovative mechanism provides a gentle rocking motion, creating a feeling of weightlessness, and the ability to lie almost horizontally. Its stylish Scandinavian design, with a seamless blend of aluminium and wood adds a contemporary edge to the leather recliner range.

MORE CHOICE, MORE COMFORT

Stressless® Signature Base is available on all small, medium and large recliners (excluding Star Base models).

FIND YOUR BALANCE with BalanceAdapt™. Subtle rocking motions enhance the feeling of total balance. These movements usually make all the difference between a good seat and a fantastic one.

Stressless® Mayfair (M) Classic Power™
Paloma Shadow Blue/Black

It's time to put your feet up.

Stressless® with Power™

Millions of people across the globe benefit everyday from our incredibly comfortable chairs. And now, we are delighted to offer our iconic recliners with new motorized patented systems. In perfect harmony with modern Scandinavian design, Stressless® with Power™ recliners offer enhanced motorized functionality while staying true to classic Stressless® design.

Stressless® with Power™ is a great alternative to a recliner and separate ottoman, and is available in two systems:

Power™ – the integrated footrest has a slim design, elegantly concealed beneath the seat, providing support for your legs and extends the footrest outwards by lightly pushing a button under the armrest. The footrest is designed to follow the natural angle of your feet and can be adapted to different leg lengths, extending longer than most other footrests on the market. It is easy to get off the chair, even when the footrest is extended. In addition to all of these benefits of the power footrest, the motorized Plus™-system of the backrest provides ultimate ease and comfort. Use the set of buttons found under the armrest next to the footrest buttons.

Battery option is also available with a magnetic charger attachment for easy access. Total comfort at the touch of a button.

POWER™ This integrated footrest is a great alternative to a free-standing ottoman. With a slim design – elegantly concealed beneath the seat, it can easily provide superlative support for your legs by extending outwards.

PLUS™ SYSTEM. Whether you are sitting or lying down, our unique Plus™ system provides optimal comfort and support for the lower back and head, in all positions. The lumbar support automatically adjusts as you recline. You can also choose between an active or rest position for the neck.

Stressless® Mike
Paloma Rock
Moon base Steel

Instant comfort.

Stressless® Mike and Max motorized recliners have a soft rocking motion that provides instant relaxation from the moment you sit down.

With the touch of one master control button, you can adjust back, leg, lumbar and head support in one synchronized movement. Or you can make independent adjustments for that just-right spot that feels best to you. Lumbar support is automatically adjusted when you change the position of the back rest, so your lower back is always supported ergonomically. In the true spirit of Stressless® innovations, Stressless® Mike and Max come complete with the patented Stressless® Plus™-system.

Stressless® Mike and Max feature a stabilizing and elegantly crafted disc-shaped moon base, with 360 degree swivel, available in brushed steel or wood in 8 different stain colors.

Optimal comfort is also about correct size. Stressless® Max and Mike are available in three sizes. Everyone can experience total relaxation, whatever their height or body shape.

Take control.

The Stressless® Mike and Max recliners have four built-in motors operating the headrest, lumbar + back and footrest to ensure a perfect individual fit. The functions are operated with the integrated control panel in the armrest. The master control button allows you to adjust the entire support system in one smooth movement.

Stressless® introduces a new upgraded Stressless® Plus™-system. By pushing only one button, you can find the predefined “TV” and “sleep” position. Like the original Stressless® Plus™-system the headrest moves forward, and the lumbar support retracts when reclining. In the upgraded Plus™-System the footrest is also included in the synchronized movement.

Time for a light, modern look.

Higher or lower back, you decide. Stressless® Star Base recliners are available in three different back options. The low back models are perfect for everyday sitting and lounging, while the high back models offer all the usual comfort features. The height-adjustable designs allow you to increase the height of the back by up to 3.9", offering truly customizable comfort contained within iconic good looks. The high back models also have an integrated neck rest, providing additional comfort in the form of an internal pillow that can be moved up and down to suit your individual support needs.

Optimal comfort is also about unique design options. Our Star base models come in 3 different options, - Low, Adjustable Headrest and High back.

PLUS™ SYSTEM. Whether you are sitting or lying down, our unique Plus™ system provides optimal comfort and support for the lower back and head in all positions. The lumbar support automatically adjusts as you recline. You can also choose between an active or rest position for the neck.

Home office comforts.

Whether it's a dedicated room, a small study space or a nook in the dining room, it's important to be comfortable when working at home. If you spend a lot of time seated working at a screen, then a well-designed chair that actively encourages movement is a necessity.

Our collection of Home Office recliners marries supreme comfort and style, blending effortlessly with the rest of your interior. Soft cushioning and sublime lower-back support mean you can sit for longer periods of time in complete comfort.

All our recliners can be used as office chairs. The models with the elegant steel structure come in a polished aluminum base, available with three back heights. The models with wooden details are only available in a black base but come with the same choice of wood colors as on the recliners.

SOFAS

50 years of living

When choosing a new sofa, there are many things to consider. The best configuration for your living space. The material, color and finishing touches to complement your interior. But great design is so much more than what meets the eye. Underneath the surface of a Stressless® sofa is where the real magic happens. We focus just as much on the functionality and comfort. How the sofa responds and adjusts to your body. How it supports you in every position. We have spent years perfecting our designs to bring you a sofa that your room will love, and your body and mind will thank for years to come.

SOFAS

With a light pressure on the right side of the seat cushion, **Power™** adjusts both the footrest and the back angle. You can also adjust the headrest articulation to support neck and shoulders. This combination provides superb support and comfort.

Stressless® Mary HR Paloma Espresso

Motorized headrest.

It's time to indulge.

Stressless® Mary HR is a truly sumptuous sofa with gentle curves and a generous look that will never go out of style. Its cushioning is extra supple and soft for added indulgence, and individual seat modules can be fitted with motors for effortless adjusting of the back and leg support. The functions are operated from an integrated panel, discretely concealed on the right side of your seat.

Seat modules with or without Power™ can be combined, and you can also add the spacious corner module to your setup. Seat modules with Power have motorized adjustment of the footrest, backrest and headrest for individual comfort.

Choose between a classic upholstered armrest or an armrest with wooden details for an elegant touch. Stressless® Mary HR matches exquisitely with Stressless® Mayfair, one of our best-selling recliner models through the decades. With the same range of leathers, fabrics and colors available across our entire range of furniture, completing your look has never been easier.

Home Office base

This castor base offers full freedom of movement and height adjustment for personal adaption of your seat height. Available in size M.

See pages 62-65 for available chair configurations.

All great choices, naturally.

Being one of the world's largest premium furniture manufacturers comes with responsibility. All our leather is manufactured in keeping with current laws and guidelines for animal welfare, health, safety and the environment. We work alongside recognized international institutions to ensure that we are always up-to-date and to assist in the leather selection process from our chosen tanneries. We maintain the highest of standards here, so that you can rest assured in the choice you are making – regardless of texture, softness, color and how you want the leather to look and feel. We offer many types of leather – from the most exclusive and delicate to the more robust quality.

PIONEER LEATHER

Full-bodied leather with good tear resistance and a delicate aniline pull-up finishing. The natural quality of this leather gives it medium-low resistance for color fastness to light and rubbing, and a natural appeal that becomes more beautiful with age. Marks, scars and insect bites are part of Pioneer's look.

NOBLESSE LEATHER

Our most exclusive leather is a full-grain semi-aniline, dyed using a light surface treatment. With the natural softness and characteristic glow of a first-class leather, Noblesse keeps its original grain, meaning minor color variations, marks and scars may be visible.

PALOMA LEATHER

Slightly corrected, a combination of dyes and pigments smooth down some of this leather's pattern, although some minor grain and color nuances may vary.

CORI LEATHER

Noticeably thicker with a larger pebbled grain effect than Batick, this grade is corrected with a uniform pattern, so most of its natural marks are removed. This creates a robust leather with many excellent properties including durability and easier cleaning.

BATICK LEATHER

A corrected leather with a uniform pattern and many of its natural marks removed. Batick is resistant to fading, but changes will occur over time due to use and light exposure. The price and durability makes it a good choice for most homes.

**For more information on leather colors, visit your dealer
or stressless.com**

Stressless® wood finishes.

On many of our collections, natural wood finishes add another touch of luxury. Depending on the model, you can choose from eight finishes. As a natural and renewable resource, subtle variations in wood pattern and color make each piece unique. As well as being attractive, beech makes our furniture extremely durable.

Stressless® Leather Care kits.

We offer our own leather care kits to match the high quality of Stressless furniture. The Stressless® Leather Care kit (medium/large) contains a leather cleaner and protection cream. Stressless® Leather Care Wipes are also available. Pioneer leather quality has its own cleaning and care products. Stressless® Cleaning & Revitalizing Pioneer Leather Kit.

For maintenance, and to make the leather more resistant to stains, the protective cream should be applied to all your recliner's leather surfaces when new. We recommend that you clean the leather with Stressless® leather cleaner at least once every six months to keep your leather looking its best, removing stains regularly and ensuring long leather life. Always apply the protective cream after cleaning.

These are the only cleaning products recommended by Stressless®. Stressless® accepts no responsibility if cleaning products other than those recommended by Ekornes are used and cause damage to the leather.

Classic elevator ring.

If you'd like to add a little extra height to your recliner or ottoman, Stressless® elevator rings are the answer. Simply snap on the rings to increase the height of both by 1.5 inches.

Signature elevator kit.

If you have a Stressless® Signature base, this easy to attach kit increases the height of your recliner by 1.2 inches, which can make a real difference in your level of comfort.

Hard Floor Protector

Easily attached to a Classic base, this self-adhesive felt protects your floor.

Stressless® Wave SCA

Medium Corner

Compatible with Arion, Wave, Saga & Aurora. Also may be used as a standalone piece when purchased with side panels.

W: 53.9 **H:** 29.1 **D:** 45.4

Sector Arm (SCA)

Compatible with Arion & Wave

W: 12.2 **H:** 22.0 **D:** 30.7

Sector Table (SC)

Compatible with Arion & Wave

W: 12.2 **H:** 22.0 **D:** 30.7

The Stressless® Sector (SC) / Sector Arm (SCA) is upholstered in the same way as the sofa and conceals a storage space beneath the top. The Sector / Sector Arm also functions as an armrest, which is why setups with Sector / Sector Arm tables should be treated as a single, fixed unit.

Stressless® Legs

Our sofas give you the choice of different legs. Steel legs provide your sofa with a more sophisticated appearance, while wooden legs make your living room appear warmer. Please note, 4.3" legs come standard.

3.1 inches for Arion & Wave
4.3 inches for Arion & Wave

Wood Bow, Rectangle Wood & Steel Hoop for Wave.

TABLES AND OTTOMANS

Stressless® Urban (L)

W: 35.4 H: 18.9

The stylish glass table is designed to match Star base models. Select from chrome or matte black finishes.

Stressless® Urban (S)

W: 21.7 H: 18.9

Stressless® Enigma

W: 35.4 H: 17.3

A stylish glass table with base in chrome.

Stressless® Corner Table

W: 27.2 H: 18.9 D: 23.6

This practical table is perfect for placing between a pair of Stressless® recliners. Also ideal for any corner setup or home cinema arrangement. Available in all stain options.

Stressless® Style Tables

W: 53.9 H: 18.5 D: 23.6

Sofa table and side table, available in several color combinations. The slight difference in height means that the tables can be easily combined in different ways, either standing apart or close together. The tabletop is made from MDF with a melamine surface and is available in White, Black and Cream. The wooden legs are available in Black, Natural and Brown.

W: 21.75 H: 20.5

Stressless® Windsor Table

W: 52 H: 18.9 D: 27.6

Made from beech. Available in all stain options.

Stressless® Ellipse Table

W: 49 H: 48-71 D: 38

This flexible, easy-to-move table is ideal, since it keeps everything you need within easy reach. Available in all stain options.

Stressless® USB Table A

W: 20.5 H: 19.7-28.7 D: 16.5

A versatile table with a USB port, this fits all Stressless® chairs perfectly. Available in various combinations of glass or wood, with a black or chrome stem (adjustable).

Stressless® USB Table B

W: 20.1 H: 19.7-28.7 D: 21.7

Stressless® Emily Steel Table Center/End

W: 19.8 D: 15.8

Two tables perfectly designed for Stressless® Emily. The Steel table for Wide arm can be fitted over the Wide armrest to create a steady surface. This table also has a practical storage for newspapers and magazines. The Steel table for Center and End modules transforms the modules into a convenient table.

Stressless® Emily Steel Table Wide Arm

W: 12.9 D: 14.7

Stressless® Computer Table

W: 16.1 D: 12.2

This table provides a good working position and remains independent of your movements. Simply swing it to the side and fold it down when not in use. Can only be fitted to Classic/Classic Power base recliners. Available in all stain options.

Stressless® Easy Armrest Table

W: 9.8 H: 3.9 D: 9.1

This smart table has been designed for the Stressless® Arion and Stressless® Wave. Simply place the table on the armrest to provide a convenient extra surface. Available in all stain options.

Stressless® Modern and Stressless® Soft Ottoman

W: 23.6 H: 17.3 D: 23.6

W: 20.1 H: 17.3 D: 15.7

W: 25.2 H: 17.3 D: 26.7

W: 20.9 H: 17.3 D: 19.3

Our ottoman is ingenious in at least two ways. First, it features a built-in tilt system, which ensures that the angle of the ottoman is adjusted to your sitting position. And second, it has room for all your extras under its removable top. Available in two sizes.

Stressless® Stella Ottoman

L: 29.5/35.4 H: 17.34 P: 22.4

A sleek footstool perfectly designed to match our Stella sofa. Compliment with an optional table. Available in 2 sizes

Stressless® Double Ottoman

W: 47.0-60.5 H: 17.3 D: 24.0

This large ottoman offers ample space to put your feet up, while the storage space conceals a tabletop that can be placed on the ottoman when needed. Available with or without table in all stain options.

DINING

All dining chairs are available in both D100 & D200 leg options and as Home Office.

Because we care

Caring for the earth isn't something we only think about occasionally. Nor is it a claim we make or a cause we advocate to gain social approval. At Stressless®, being environmentally friendly is how we, as Norwegians, live every day and a philosophy that we instill into every piece of Stressless® seating we make.

We are committed to using materials that are sustainable and manufacturing processes that have a low environmental impact. This includes using recyclable packaging materials and eco-friendly paints, lacquers, textiles and wood, employing a closed loop system that cleans steel without releasing toxins and making products that last for many decades, not just a few years.

By preserving the cold, crystal waters we sailed for centuries and the land we farmed and hunted for generations, not only are we protecting our past, we're paving the way for a bright future.

100% clean energy

We are from a beautiful place surrounded by majestic mountains, deep fjords and waterfalls, all reminding us to protect this inspiring environment around us. 100% of the power supplied to our Stressless® factories in Norway come from hydropower; a renewable energy source generated by an endless water cycle. When you purchase Stressless® furniture, you are not only investing in your comfort but also making a sustainable and responsible choice.
