Lean back

... your body and mind will thank you

Did you know that something as simple as leaning back can make a huge difference to your well being? Your muscles relax, your heart rate drops, and you sleep better. Plus, your creativity and efficiency increase and your mind gets recharged. That's why it's important to take regular breaks – even if you're always on the go. Stressless® furniture is the perfect place to do it.

At Stressless®, we've combined decades of comfort innovations to create the ultimate relaxation experience. Unique innovations over the decades have contributed to premium quality and craftsmanship that will last you for years. As always, our mission is to create the most comfortable seating in the world. So lean back, relax, and join us as we continue in our quest.

Designing for the future

The unique design of Stressless® furniture and the recognizable look is true to our Nordic design heritage and based on well-thought-out combinations of high-quality materials that ensure lasting product.

Circular design

We aim to satisfy the demands of our customers by creating products that are easy to take apart. This makes it possible to replace components for repairs, recycling or repurposing. Our goal is to maximize the use of recyclable materials so they can be reintegrated into the product cycle in the future.

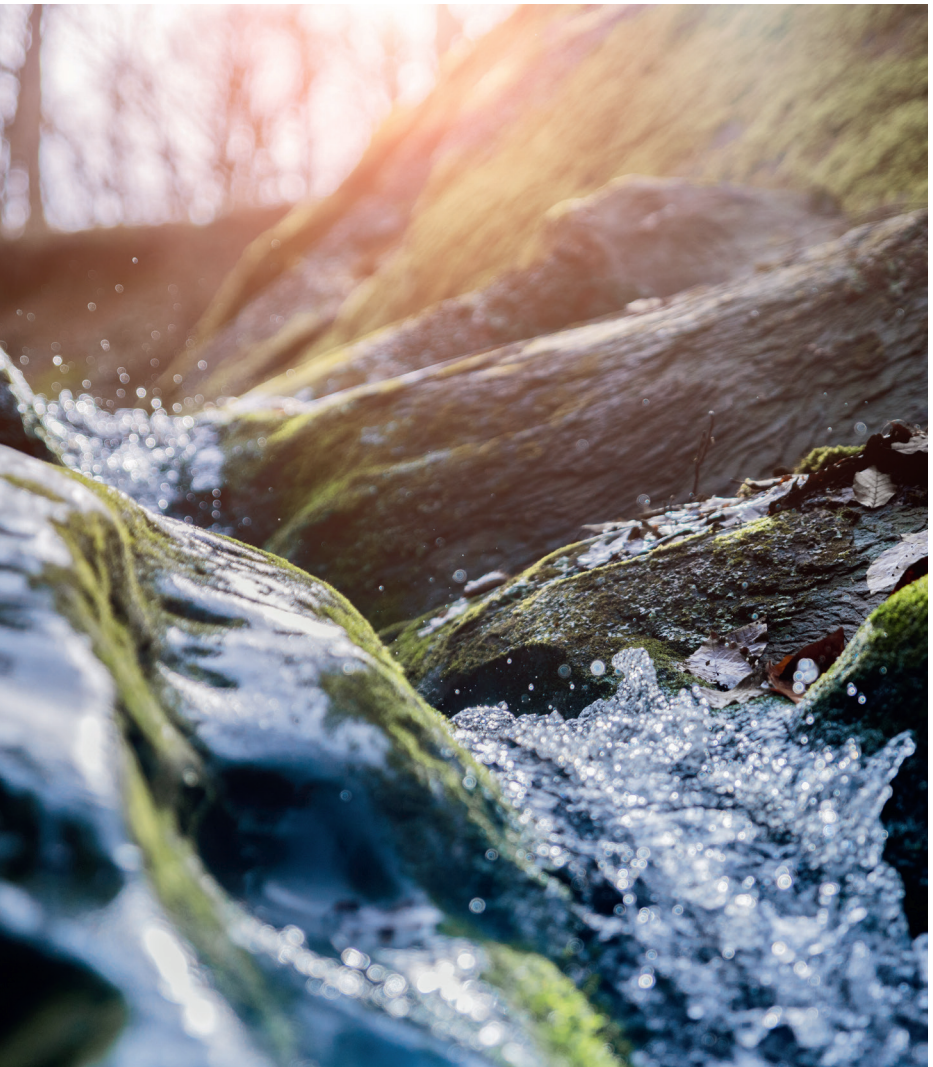

Quality and comfort that lasts

Our raw materials are selected with the utmost care and consideration to make our furniture durable. This durability extends its lifespan and lowers the environmental impact, making design essential. With our focus on timeless pieces, we create Stressless® icons that stand the test of time.

Patented features

For more than 50 years, Stressless® has developed innovative comfort features based on insight into human anatomy and people's everyday lives. This has contributed to a large number of patents which have repeatedly set the bar for the category.

Waste free production

An important goal in our sustainability strategy is achieving zero-waste production. By reincorporating by-products from our own products into our existing models, we're able to save virgin material and make waste a valuable resource in our factories.

Nordic heritage

Stressless® draws inspiration from our roots and our environment. We're committed to sustainability and precision, which forms a legacy that Stressless® embodies across borders and markets.

Born of nature

The legendary Stressless® recliner was born on the west coast of Norway, in the small community of Sykkylven, where our main factory resides. Jens Ekornes founded the company in 1934, after which an unbroken lineage of proud craftsmen have produced some of the world's finest furniture. In a place where resources were scarce, everything had to be built to last. That philosophy still resides within the factory walls.

Stressless® recliners

If you've ever owned a recliner that's truly comfortable, you know that it quickly becomes the most popular piece of furniture in the house. It's where you go to relax after a long day at work, or to spend a well-deserved lazy morning. It's where you read, watch TV, chat and even put in some additional working hours. With this in mind, it's reassuring to know that a Stressless® recliner conforms to your body and adapts as you move, satisfying your body's need for natural motion.

Discover the secrets of personal comfort

1. Perforated foam is molded directly over the frame. The indentations in our Comfort Zones™ technology allow you to sink deeper into the seat, embracing your body and giving you an enhanced feeling of personal comfort.
2. An additional pad of soft, space-age foam ensures optimum comfort.
3. Super-soft, polyester fiber cushions your body and ensures an attractive look.
4. A durable steel frame and flexo springs offer superior resilience and continuous support.
5. The Plus™-system provides continuous support for your head and lower back. The double-sided mechanism provides maximum stability and functionality.
6. Genuine top-grain leather covers the entire seat for a luxurious look and feel.
7. The Stressless® Glide™-system allows the recliner to automatically adjust to your body weight.
8. The different bases provide full stability and 360-degree swivel.
9. Each base is made of 32 layers of laminated European beech.

Lean back and take our Comfort Test™

The ultimate feeling of comfort is a highly individual and personal experience. Because needs differ from person to person, we encourage you to take our Stressless® Comfort Test™ to find the size and model that fits you best. After all, a Stressless® recliner is an investment you will enjoy for many years to come.

- Does the recliner feel stable and safe?
- Are the height and width of the chair right for you?
- Do you find it easy to adjust the chair to your preferences?
- Does the chair provide good lumbar support in all positions?
- Is your head supported comfortably as you recline to read or watch TV?
- Can you adjust the headrest so that it lies flat when you recline?
- Do you have the feeling that the seat back reclines sufficiently?
- Do you have a comfortable and relaxing angle for leg support?
- Can you position the leg rest according to your preferences?
- Are you aware of how your entire body relaxes?

Stressless

A new level of comfort

The Plus™-system allows automatic adjustment of the support for your neck and lumbar region, allowing you to read or watch TV comfortably –even when fully reclined. This feature is present on all Stressless® recliners and high-back sofa models, with the sofas featuring individual seat control as well. You can also easily activate the headrest sleep function, giving you the freedom to take a ten-minute power nap or an hour long snooze – the decision is entirely up to you.

The Glide™-system is integrated in the Stressless® wheel, which you simply turn to select the most suitable resistance for you. It allows you to experience a tailored level of comfort every time you sit down.

Paloma Dark Olive/Walnut

Plus™-system. Whether you're sitting or lying down, our unique Plus™-system provides optimal comfort and support for the lower back and head in all positions. The lumbar support automatically adjusts as you recline. You can also choose between an active or rest position for the neck.

Stressless® Sunrise (M) Classic with **Ottoman**
Batick Platinum Grey/Wenge

A smarter ottoman

A freestanding Stressless® ottoman is the perfect partner for our recliners and sofas. Why? Well, it's not your traditional, static ottoman.

All Stressless® furniture is based on research into human anatomy, and we found that when you lean back in a recliner, your legs move forward and down for a more relaxed angle of the ankle. Most traditional, flat ottomans don't support this sitting position. Stressless® ottomans do.

They possess a built-in sliding function that automatically follows the movement of your legs. This gives you the freedom to move while staying completely supported and makes the world's most comfortable recliner even better. What's more, in a locked position, you can use our ottomans as an extra seat.

Plus™-system. Whether you're sitting or lying down, our unique Plus™-system provides optimal comfort and support for the lower back and head, in all positions. The lumbar support automatically adjusts as you recline. You can also choose between an active or rest position for the neck.

BalanceAdapt™. Our bodies are designed to move. The soft, gentle rocking motion of BalanceAdapt™ gives you perfect balance in every position. The seat angle automatically adjusts to your body's every movement, as the back and seat move together in harmony All Stressless® Signature and Cross base recliners are designed with our BalanceAdapt™-system.

Stressless® Consul (M) Classic Power™
Batick Cream/Oak

The power nap reinvented

With built-in motors operating the back and footrest. Stressless® recliners with a Classic Power™ base offer enhanced motorized functionality and are a great alternative to a recliner with a separate ottoman.

The integrated ottoman has a slim design and is elegantly concealed beneath the seat. With the push of a buttom under the armrest, you extend the footrest. It's designed to follow the natural angle of your feet and can be adapted to different leg lengths, extending longer than most other ottomans on the market.

A battery operated version is also available, with a magnetic charger attachment for easy access.

Classic Power™. This integrated footrest is a great alternative to a free-standing ottoman. With a slim design that's elegantly concealed beneath the seat, it can easily provide maximum support for your legs by extending it outwards.

Stressless® Magic (M) Classic Power™
Paloma Fog/Walnut

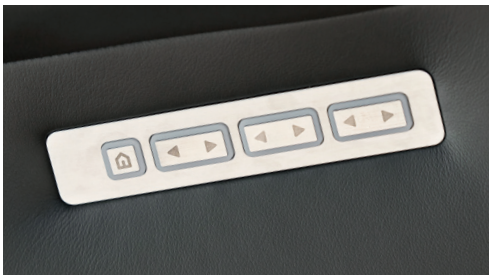

Stressless® Max
Paloma Vanilla/Walnut

Relaxation at the touch of a button

Ready to unwind? The Stressless® Max and Mike motorized recliners have a soft rocking motion that provides instant relaxation from the moment you sit down. With the gentle touch of one master control button, you can adjust the back, leg, lumbar and head support in one synchronized movement. You can also make independent adjustments to find just the right spot.

The lumbar support is automatically adjusted when you change the position of the backrest. In the true spirit of Stressless® innovations, Stressless® Max and Mike both come complete with the Plus™-system and are equipped with unique ComfortZones™ in the seat and back. They feature a stable and elegantly crafted 360-degree, disc-shaped Moon base that's available in brushed steel or in multiple wood finishes.

Power. With light pressure on the control panel, Power adjusts both the ottoman and back angle. This combination provides superb support and comfort.

Stressless® sofas

Whether your personal style is playful, elegant or bold, there's a Stressless® sofa design that fits you! Every Stressless® sofa can be customized with your choice of materials, colors and details. But looks are just the start of your voyage toward ultimate home comfort. Below the surface, a Stressless® sofa has functionality based on decades of research into the best possible sitting experience. It's much more than a comfortable seat. It's a seat that adapts and moves with you. It's a sofa that feels just as good as it looks.

Take a break from gravity

Introducing the new Stressless® Anna power sofa. The first true zero-gravity power sofa by Stressless® highly elevates your legs which distributes body weight more evenly for maximum relaxation. Your spine is elongated and blood flow increases to your extremities by lifting your knees over your heart.

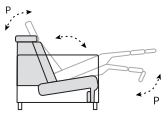

The beautiful modern, slimmer silhouette of Stressless Anna and its ability to recline close to a wall makes it a perfect fit for even small spaces.

The perfect gathering place

Stressless® Emily is a no-holds-barred luxury modular sofa system with all the comfort and functions you have come to expect from Stressless® furniture. Create the modern sofa of your dreams. An adjustable headrest comes standard on all seat modules. Put your feet up on the LongSeat module with leg support and adjustable headrest or choose a Power™ seat to get an adjustable ottoman. It's customizable to your every whim with different arm styles, materials, corner option and long seat option. You can even change the look of it simply by lowering the adjustable headrests for a sleek low-back sofa with perfect back support for sitting, or adjust the angle and height of the headrest for extra support for your head and neck. The options are endless! Now available in a new angled seat option as well.

Stressless® dining chairs

Have you ever found yourself wishing you could spend more time together as a family? The dining area is often the only meeting point in a busy schedule. It's also the place where you eat, chat, share memories, and enjoy the company of friends - both old and new.

One way to ensure family and friends flock to the table is by surrounding it with the most comfortable seating possible. Stressless® Dining chairs are designed to work with your body, not against it. They have a flexible seat and back, allowing them to follow and respond to the movements of your body whether you're leaning back or sitting upright. With Stressless® Dining chairs, you can spend hours upon hours in complete comfort.

Lean back

... and meet your loved ones

The essence of Stressless® is furniture that moves with your body. This is when we can achieve ultimate comfort. The Stressless® line of dining chairs allow you to automatically adjust the seat and back position without using levers or handles. Lean forward, and feel the chair move to reduce the pressure under your legs while supporting your back. Lean back, and enjoy the reclining backrest while the seat slides forward, providing a more open and comfortable sitting position.

Dining with a twist

Since movement is key to a truly comfortable sitting experience, we've introduced Stressless® Dining chairs with a new base and a new range of motion. Stressless® Dining with the D350 base has a full 360-degree swivel function making it easier to get in and out of the chair, and reducing the need to pull the chair away from the table before sitting down or getting up. It also helps keep the conversation going, as you can turn the chair to face the person you're talking to. This is innovative dining at its best!

Balance&Glide™. Stressless® Dining chairs have a flexible seat and back, offering a variety of positions for increased comfort. This comfort allows you to maximize your quality time with friends and family.

Stressless® mattresses

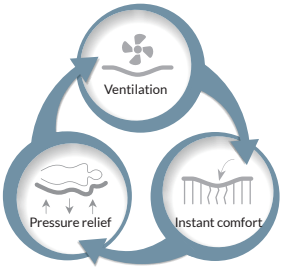

With over 80 years of experience in the mattress industry, we are excited to bring proprietary and innovative comfort components to the North American market with the Stressless® Sky. Our designs are based on decades of research on sleep comfort, and have won the hearts and dreams of Nordic customers since 1937. Our in-house expertise is now combined with the legendary Stressless® brand to make a new standard in sleep comfort.

Better sleep is an investment in health

Did you know that sleep is just as important for your health as food and fresh air? Quality sleep can improve memory, reduce stress levels, and boost immune function. Investing in a good night's sleep is one of the most important decisions you can make for your health and well-being.

The Stressless® Sky mattress is built to provide the optimal starting point for a natural sleeping position using AdaptiveZone™ pocket springs to offer ultimate support and comfort to your body. There are three firmness levels in the pocket spring coils which are strategically placed to create five "support zones" in the mattress. This clever zone system provides excellent support for spinal alignment whilst cradling your shoulder and hips, creating ideal conditions for uninterrupted sleep throughout the night and allowing you to wake up feeling refreshed and rejuvenated.

The Sleep Circle – Providing Optimal Sleep

Optimal support and pressure relief

Stressless® Sky mattresses are built to cradle your shoulders and hips and provide the optimal starting point for a natural sleeping position. They also provide excellent support for spine alignment, which is essential for a comfortable and restful night's sleep. Without good support, your spine may be forced into an unnatural position, leading to aches and pains throughout the body.

Ventilation

Your body's temperature naturally drops as you sleep, which helps initiate and maintain sleep. If the ambient temperature is too high or too low, it can interfere with this process, resulting in poor sleep quality and a disrupted sleep cycle. Thanks to their excellent ventilation properties, Stressless® Sky mattresses help maintain a comfortable sleeping environment.

Instant comfort

Stressless® Sky mattresses instantly adapt to your body when you lie down, providing just the right amount of support. With their high quality upholstery foam and pocket springs that are divided in five comfort zones, they provide an unparalleled sleeping experience regardless of your size, shape or weight.

Stressless
Stressless

Stressless

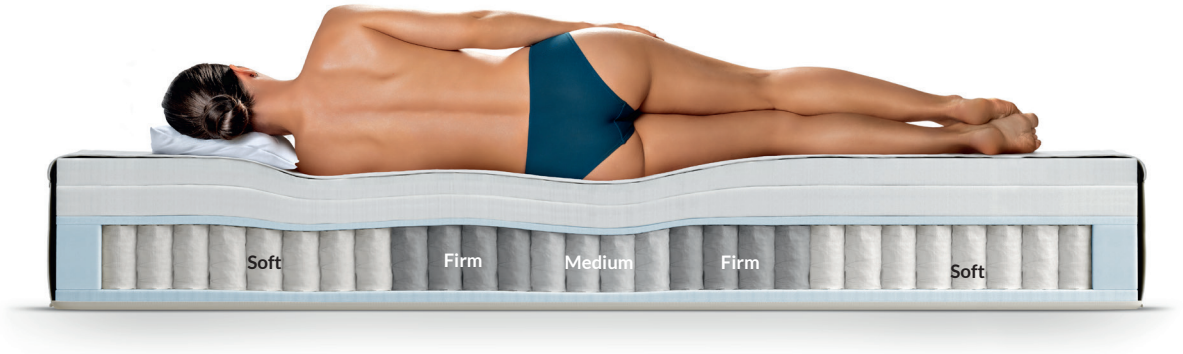

A modular mattress system

The Stressless® Sky modular system allows you to customize your comfort with layers of plush padding, foam and pocket springs, ensuring you get the support you need to start your day feeling refreshed. The different layers are cleverly zipped together, allowing both personalization of comfort and easy transport.

1. The Cloud layer is a triple viscose infused layer for excellent moisture management and a cooling effect. The elastic material found in nature enhances the softness of the NordicSoft™ foam, adapting to the body contours for an instantly comfortable sleep surface.
2. The Plush layer is an optional layer for those who would like to indulge in extra plush and embracing sleep comfort. This is obtained through a generous layer of our NordicSoft™ foam, reinforcing the feeling of weightlessness and instant comfort. The open structure lets air and moisture travel through.
3. The Support layer is equipped with high-quality pocket springs with AdaptiveZones™ that provide excellent support for spine alignment while cradling your shoulders and hips. The spring unit is enveloped in a layer of our elastic and supportive in-house developed foam.

The Stressless® Sky mattress easily adapts to your individual needs, thanks to its innovative AdaptiveZone™ pocket springs and NordicSoft™ foam. All the layers in the mattress are carefully calibrated to provide perfect sleep comfort and quality, regardless of body shape and comfort preferences. The support layer is made with high quality individual springs for perfect spine alignment.

The Innovators of Comfort™

With the best quality materials, environmentally friendly processes and an uncompromising focus on comfort, our machines and people work together to create furniture that will last a lifetime. When you sit down and feel the comfort of Stressless® furniture, you'll immediately understand.

Whether you sit up or lie down, the **Plus™-system** provides optimal comfort and support for your head and lumbar region. The sleep function is controlled with a simple hand movement to make your comfortable moments even better.

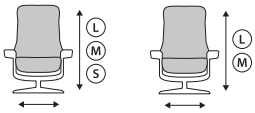

With **BalanceAdapt™,** subtle rocking motions enhance the feeling of total balance. These movements make all the difference between a good seat and a fantastic one.

With light pressure under the armrest, recliners with the **Classic Power™** base adjusts both the footrest and the back angle. This combination provides superb support and comfort.

Balance&Glide™. Stressless® Dining chairs have a flexible seat and back, offering a variety of positions for increased comfort. This comfort enables you to maximize your quality time with friends and family.

Optimal comfort is also about correct size. Most recliners come in Small, Medium and Large, for the perfect fit.

When you sit down in a fixed-back sofa with **ComfortZones™**, the back part of the cushion gives in more than the front part of the cushion. This causes the seat cushion to angle slightly, giving you a comfortable position for your legs when seated.

Power. With light pressure on the right side of the seat cushion, Power adjusts the headrest, lumbar support, back and ottoman for total support and exceptional comfort.

Create the recliner of your dreams

Never before have so many options been available to help you find the Stressless® recliner that's just right for you. We wanted to make sure that everyone could experience total relaxation, regardless of height or body shape. Classic Elevator Ring

If you'd like to add a little extra height to your recliner or ottoman, Stressless® elevator rings are the answer. Simply snap on the rings to increase the height of both by 1.5 inches.

Signature Elevator Kit

If you have a Stressless® Signature base, this easy to attach kit increases the height of your recliner by 1.25 inches, which can make a real difference in your level of comfort.

Hard Floor Protector

Easily attached to a Classic, Classic Power or Signature base, this self-adhesive felt protects your floor.

Design with the Stressless@home app

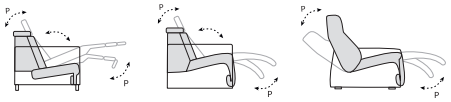

The Stressles@home app lets you customize our furniture and place it in your home with the help of your phone or tablet. It provides you with pictures of all our chairs and sofas and lets you choose the materials, colors and base you prefer. It doesn't get easier:

- Download the app at the Apple App Store or Google Play.
- It will automatically download all available Stressless® products at startup.
- Choose the model and style you prefer.
- Choose "View at Home" to see your Stressless® home through your phone's camera.

Put your Stressless® modular sofa together the way you want. With our ingenious flexible modules, there's always room for a Stressless® sofa regardless of the space. First, find your favorite model and then, select your ideal arrangement. See a few possible configurations in a variety of our styles below.

Find out more about the many options available for each sofa model at stressless.com.

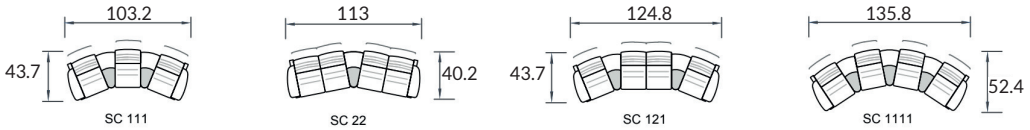

Stressless® Home Theater seating

You move more than 300 times during an entire movie. This might sound exhausting, but don't despair–Stressless® Sapphire Home Theater seating is designed to adjust to your every movement. Its spacious, soft seats, combined with a Stressless® ottoman, ensure a perfect movie experience.

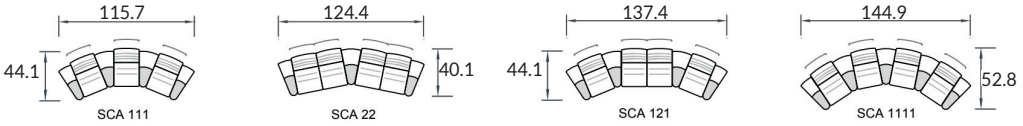

Regardless of how much space you have available for your home theater setup, our ingenious flexible modular designs ensure that there's always space for a Stressless® Home Theater.

The Stressless® Sector (SC) / Sector Arm (SCA) is upholstered in the same way as the sofa and conceals a storage space beneath the top. The Sector / Sector Arm also functions as an armrest, which is why setups with Sector/ Sector Arm tables should be treated as a single, fixed unit.

Stressless® Urban (L)
W: 35.4, H:18.9

Stressless® Urban (S)
W: 21.7, H:18.9

The two sizes of this stylish glass table are available in chrome or matte black finishes.

Stressless® USB table A
W: 20.5, H: 19.7-28.7, D: 16.5

A versatile table with a USB port, this fits all Stressless® chairs perfectly. Available in all wood finishes, with a black or chrome stem (adjustable).

Stressless® Ellipse table
W: 19.3, H:18.9-28, D:15

This flexible, easy-to-move table is ideal, since it keeps everything you need within easy reach. Available in all stain options (adjustable).

Stressless® Stella Ottoman
W: 29.5/35.4, H: 17.34, D: 22.4

A sleek ottoman perfectly designed to match our Stella sofa. Compliment with an optional table. Available in two sizes

Stressless® Double Ottoman
W: 47.0-60.5, H: 17.3, D: 24.0

This large ottoman offers ample space to put your feet up, while the storage space conceals a tabletop that can be placed on the ottoman when needed. Available with or without table in all stain options.

Stressless® Modern Ottoman
W: 23.6, H: 17.3, D: 23.6

W: 20.1, H: 17.3, D:15.7

Our ottoman is ingenious in at least two ways. First, it features a built-in tilt system, which ensures that the angle of the ottoman is adjusted to your sitting position. Secondly, it has room for all your extras under its removable top. Available in two sizes.

Stressless® base colors

We use rotary cut beech veneer in all our molded furniture components and lightly steamed beech for solid wood components. The hardness of the wood makes beech furniture extremely durable, and the timber we use is a renewable resource. Beech is a natural material and variations in its pattern, color and texture make each piece of our furniture unique. Although beech is used for both solid and molded components, structural differences may be visible.

Stressless® Leather and Fabric Care kits

Stressless® offers its own leather and fabric (including microfiber) care kits that match the high quality of our furniture.

The Stressless® Leather Care Kit (Medium/Large) contains a leather cleaner and protection cream. Stressless® Leather Care Wipes are also available. For maintenance and to make the leather more resistant to stains, the protective cream should be applied to all your recliner's leather surfaces when it's new. We recommend that you clean the leather with Stressless® Leather Cleaner at least once every six months to keep your leather looking its best, and to remove stains regularly. This will ensure a long leather life. Always apply the protective cream after cleaning.

The Stressless® Fabric Care Kit contains a fabric cleaner, a stain remover and an Ox cleaner. It contains everything you need to clean your furniture in minutes–without removing the fabric cover. For resistant stains, use the fabric cleaner with the stain remover and Ox cleaner.

These are the only cleaning products recommended by Stressless®. Stressless® accepts no responsibility if cleaning products other than those recommended by Stressless® are used and cause damage to the leather.

All great choices, naturally

Being one of the world's largest premium furniture manufacturers comes with responsibility. All our leather is manufactured in keeping with current laws and guidelines for animal welfare, health, safety and the environment. We work alongside recognized international institutions to ensure that we're always up-to-date.

Our inspectors also take part in the leather selection process from our chosen tanneries. We maintain the highest standards so that you always make a great choice – regardless of texture, softness, color and how you want the leather to look and feel. We offer three types of leather – from the most exclusive and delicate to the more robust in quality.

BATICK is a corrected, pigment improved and grain embossed upholstery leather, which has had most of its natural marks removed. Batick may have a two-tone color effect to liven up the surface. Batick is resistant to fading, although changes in color will occur over time due to use and exposure to light. A protective layer of lacquer simplifies cleaning. Simple cleaning, excellent utilisation properties and a favourable price make Batick a good choice.

PALOMA is a slightly corrected leather with a combination of dyes and pigments that smooths down some of the structure (the grain pattern) of the leather. The grain structure in Paloma may however vary a little at some parts of the furniture and also minor color nuances may appear in the leather. Natural marks, scars and insect bites are natural and will appear in Paloma. A thin coat of lacquer gives Paloma some protection and simplifies cleaning, but Paloma does not have the same heavy duty quality and protection as Batick. Due to its soft, natural and comfortable expression, Paloma is a very popular choice.

NOBLESSE is the most exclusive leather quality offered by Ekornes. It is a full grain semi-aniline, which means that it is dyed all the way through and has only a thin protective topcoat. This allows the leather to keep the natural softness and lustre that characterises a first-class furniture leather. A natural material like Noblesse retains its original grain and structure. Minor color nuances and skin blemishes may also occur. Such individual details could lead to slight variations in different parts of the furniture cover. Although the topcoat provides a measure of protection, Noblesse is the most delicate of the leather qualities that Ekornes uses. It absorbs moisture easily, and is more vulnerable to wear and tear, heat, sunlight, spills and perspiration. Regular maintenance is important to keep its attractive appearance.

VELARO is a thick, full-bodied leather with an elegant grain and natural look. It is dyed through, with a natural surface that is only slightly corrected and coated. A light embossing mitigates the grain variations on the leather's surface. However, all natural leathers have some grain structure variations, natural marks, and color nuances, which should also be expected on Velaro. Although robust, this leather remains soft and sumptuous to the touch. A thin topcoat protection provides Velaro with some resistance to staining and simplifies cleaning, but Velaro does not have the same heavy-duty quality and durability as Batick.

Inspired by nature

At Stressless®, we're proud caretakers of the beautiful scenery that surrounds our factory in Norway. We wholeheartedly believe the best choice you can make is to furnish your home with high-quality furniture that lasts a lifetime. We're also delighted to offer you products that are made with an extra focus on the environment and sustainability. This is evident in our choice of materials and in our production.

Our collection of fabrics is inspired by nature, giving you the ability to create a calm breathing space in the comfort of your own home. We have a wide selection of qualities and colors that you can choose from.

ASTER is a sustainable fabric, made entirely from recycled plastic. The woven structure creates a lively surface which feels gentle and soft to the skin.

CALIDO is a sustainable, soft Norwegian wool with an exclusive look. Calido is a wool fabric with an exclusive look and feels comfortable and soft next to your skin. It's available in a diverse and exclusive color palette. Wool is a natural fiber that breathes, making it feel warm when it's cold and cool when it's hot. 80% wool, 20% polyamide.

DAISY is an exceptionally soft fabric, made from recycled plastic. It's a very soft and comfortable fabric that's made from recycled bottles. The silky soft fiber is weaved with a light structure and a soft pile. The harmonious color palette has a nice sheen and play created by a weave with different nuances and structure. Daisy is a good choice if you're looking for a sustainable, strong fabric with a soft touch and easy maintenance. 100% GRS certified polyester PET.

DINAMICA is comfortable, breathable and easy to clean. It's a well-known micro fiber-quality fabric, with an appearance that resembles suede leather. Dinamica is soft, very comfortable, breathable, non-static, and highly wear resistant. 88% polyester, 12% polyurethane.

For more information on fabrics and leather colors, visit your closest Stressless® dealer or stressless.com.

10 YEAR GUARANTEE

10 Year Internal Mechanism & Construction Guarantee
We guarantee the internal mechanism and construction of our recliners and sofas for a period of 10 years from the date of initial delivery to the consumer. The 10-year guarantee covers the mechanical functions in the recliner/sofa. The 10-year guarantee covers the internal framework of steel and/or wood, including the metal springs.

The 10-year guarantee does not cover damage to leather, woodwork or any faults or damage caused by the use of the product other than in accordance with the manufacturer's recommendations, as well as any faults or damage arising from any repairs made by any persons not authorized by the manufacturer or use of non-original parts. Some natural settlement and indention in the padding and foam is considered normal and is part of a break-in process.

5 YEAR GUARANTEE

5 Year Warranty on Base, Foam and Power Motor/Mechanisms
The 5 year warranty covers the base for the chair and ottoman, including the swivel ring, gas lift, extensions as well as all foam and interior padding in the chair and ottoman. Also includes electronic parts and motor for Power mechanism and all accessories. Please note that some deformation and indention in padding is considered normal and is part of a break-in process.

2 YEAR GUARANTEE

2 Year Power Battery Guarantee
We guarantee Power Batteries for a period of 2 years from the date of initial delivery to the consumer. This guarantee only applies to the battery units offered by Stressless®; use of 3rd party batteries with Stressless® products will void the entire Stressless® warranty.

1 YEAR GUARANTEE

1 Year Leather and Fabric Guarantee
This guarantee covers all leather or fabric upholstery including stitching and zippered assemblies for a period of 1 year from the date of initial delivery to the consumer.

See stressless.com/warranty for complete warranty details.
