LEATHERS

All our leather types and colors are deep-dyed. Some colors have been enhanced with a two-tone effect. Color nuances are normal and to be expected. Leather absorbs moisture and breathes. Color changes will occur with time, as a result of use and the effects of sunlight.

ABOUT LEATHER

Leather is a beautiful, vibrant and durable upholstery material. The play of color in the leather and the natural markings make each piece of furniture unique. Ekornes® buys upholstery leather from leading tanneries throughout the world. Our hide selection process, overseen by our own inspectors, utilizes the most stringent international quality control standards.

BATICK

A corrected through-dyed, pigmented and grain embossed upholstery leather, which has had most of its natural marks removed. A protective layer of lacquer allows spills to be easily removed. Easy to clean and attractively priced, Batick is a popular choice for those who want a more resilient leather.

PALOMA

An through-dyed upholstery leather with a combination of dyes and pigments in the finish. Paloma has a natural grain pattern and visible natural marks. The light finish improves the leather's physical properties and yields a more uniform color. With its rich, luxurious feel, Paloma is the preferred choice of those who want a soft, authentic look in a leather that breathes well.

NOBLESSE

Noblesse is the most exclusive leather quality offered by Ekornes. It is a full grain semi-aniline, which means that it is dyed all the way through and has only a thin protective topcoat. This allows the leather to keep the natural softness and lustre that characterises a first-class furniture leather. A natural material like Noblesse retains its original grain and structure. Minor color nuances and skin blemishes may also occur. Such individual details could lead to slight variations in different parts of the furniture cover. Although the topcoat provides a measure of protection, Noblesse is the most delicate of the leather qualities that Ekornes uses. It absorbs moisture easily, and is more vulnerable to wear and tear, heat, sunlight, spills and perspiration. Regular maintenance is important to keep its attractive appearance.

FABRICS

CALIDO is a wool felt fabric with an exclusive appearance, which feels comfortable and soft next-to-the-skin. It is available in a varied and exclusive color palette.

DAISY is an exceptionally soft pile chenille fabric made from recycled bottles and upcycled marine PET. The silky-soft fiber is woven with a light structure and a soft pile. The harmonious color palette has a nice sheen and play created by a weave with different nuances and structure. Daisy is a good choice if you are looking for a sustainable and strong fabric with a soft touch and easy maintenance.

DINAMICA is a well-known micro fiber-quality fabric, with an appearance that resembles chamois leather. It is soft and very comfortable, breathable and non-static. Easy to keep clean and highly water resistant.

GRACE is a velour with a medium length pile. The soft, silky texture provides a fine sheen and an attractive interplay of colors. Grace is hardwearing, comfortable to sit on and easy to keep clean.

ULTRASUEDE is only available on products produced in Morganton, NC. Recliners are not available in Ultrasuede.

The Coupling Bracket is mandatory to connect Stressless Flora & Fiona seat modules together to create a sofa with multiple seats.

To build, for instance, a 4-seat sofa, you must purchase a 2 seat with arm left, a 2 seat with arm right, and this kit that contains everything necessary to securely attach the modules together.

In this kit, there is a steel bracket + an extra pair of legs and screws/tools.
