THE INNOVATORS OF COMFORT™

EKORNES LEATHERS

All our leather types and colors are deep-dyed. Some colors have been enhanced with a two-tone effect. Color nuances are normal and to be expected. Leather absorbs moisture and breathes. Color changes will occur with time, as a result of use and the effects of sunlight.

ABOUT LEATHER

Leather is a beautiful, vibrant and durable upholstery material. The play of color in the leather and the natural markings make each piece of furniture unique. Ekornes® buys upholstery leather from leading tanneries throughout the world. Our hide selection process, overseen by our own inspectors, utilizes the most stringent international quality control standards.

BATICK

A corrected through-dyed, pigmented and grain embossed upholstery leather, which has had most of its natural marks removed. A protective layer of lacquer allows spills to be easily removed. Easy to clean and attractively priced, Batick is a popular choice for those who want a more resilient leather.

CORI

Cori is a corrected, pigment improved and grain embossed upholstery leather. Cori has a substantial body and a distinct pebbled grain. Most of its natural marks are removed. Cori has a tip-shine which adds depth and character to the surface. Some colours have two-tone/ tone on tone-effect. A protective layer of lacquer simplifies cleaning. Cori is a wise choice if you want leather with excellent utilisation properties, a robust structure and an exclusive look.

PALOMA

An through-dyed upholstery leather with a combination of dyes and pigments in the finish. Paloma has a natural grain pattern and visible natural marks. The light finish improves the leather's physical properties and yields a more uniform color. With its rich, luxurious feel, Paloma is the preferred choice of those who want a soft, authentic look in a leather that breathes well.

NOBLESSE

Noblesse is the most exclusive leather quality offered by Ekornes. It is a full grain semi-aniline, which means that it is dyed all the way through and has only a thin protective topcoat. This allows the leather to keep the natural softness and lustre that characterises a first-class furniture leather. A natural material like Noblesse retains its original grain and structure. Minor color nuances and skin blemishes may also occur. Such individual details could lead to slight variations in different parts of the furniture cover. Although the topcoat provides a measure of protection, Noblesse is the most delicate of the leather qualities that Ekornes uses. It absorbs moisture easily, and is more vulnerable to wear and tear, heat, sunlight, spills and perspiration. Regular maintenance is important to keep its attractive appearance.

EKORNES FABRICS

All our fabrics are supplied from environmentally accredited mills and are completely recyclable. They are all fire retardant and meet all government regulations. Fabrics are available on all Ekornes and Stressless products and meet or exceed 40,000 Martindale cycles and meets all ecological production processes. Color changes will occur with time as a result of use and the effects of sunlight.
